FREQUENTLY ASKED QUESTIONS

1. **If I hold an electrology limited instructor license, do I have to take the theory again to apply for the full instructor license?**

   No. The exams are the same for the full and limited electrology instructor license.

2. **How long are instructor exams valid?**

   Instructor passing exam results are valid for one year from the date earned.

3. **What is the difference between the electrology limited instructor and the full electrology instructor license?**

   Electrology Instructor: This is a license granted to a qualified individual who teaches or offers to teach electrology in a school of cosmetology and holds an active electrologist license.

   Limited Electrology Instructor: This is a license granted to a qualified individual who teaches or offers to teach electrology in a school of cosmetology and holds an active electrologist license but does not have at least 3 years of practical experience in electrology, at least 1 year of which shall be in a cosmetology establishment holding a limited license for the practice of electrology.

4. When can I renew my instructor license?

The instructor license must be renewed after the renewal of the electrology license as this is the parent license. To avoid a duplicate payment error, wait about 30 minutes between completing the electrology and instructor renewal applications.

You will be sent a renewal notification to both your mailing and email address on record approximately 90 days prior to the expiration date of your license. You will not be able to renew before that time. Remember to notify the Department of any address change by submitting a MiPLUS modification. It is your responsibility as a licensed professional to renew your license on time. Failure to receive the renewal postcard, email notification, or to notify the Department of an address change does not exempt you from renewing your license on time.

You can renew online by logging into your MiPLUS account at www.michigan.gov/MiPLUS. You may pay your renewal fee by using a debit or credit card containing a Visa, MasterCard, American Express, or Discover logo.

5. If I am applying through receiprocity, am I required to take the theory exam?

Yes. All instructors even if applying through reciprocity must take the Michigan theory exam.

6. Do I take my theory exam before applying for the electrology instructor license?

Yes. The applicant can test with PSI before applying for licensure.
