Shaltry informed the committee that she needed to meet with the department regarding the advertising rule. That discussion will need to wait until the next rules committee meeting.

R 338.11103 Identification, written consent.

Shaltry informed the committee that this rule will be moved to R. 338.11120.

Shaltry stated that the Investigations and Inspections Division asked if the treatment cost and the identity of the individual performing the procedure can be added to the treatment record. What are the committee's thoughts on this?

Johnston stated that it can be hard to give an estimate, and he was not sure about putting this burden on the provider.

Fuller stated that it would have to be the total cost.

Morgan indicated she was in favor of this change

Johnston added should we add language as to where the student is enrolled.

Ralstrom stated that she has a small practice, and someone may see multiple treatments and different providers. Would they need a new consent every time? The treating provider would always be noted in the chart. Is it acceptable to have separate documents?

Fuller stated that consent for treatment would need to be a second document.

Shaltry reminded the committee that the original concern was that patients may not be aware that a student was performing the procedure. The patient needs to know who is performing the procedures.

Fitzgerald stated this was something that the committee should think about. For instance, this would be burdensome to remote clinics. The provider can change on any given day.

Johnston stated we would need to separate these out. Patients need to be aware whether the person performing the procedure is or is not a licensed provider.

Johnston suggested adding (d) an initial treatment plan. Would the patient need to sign every time?

Shaltry stated she thought the department only requested that the name of individual performing the procedure be noted in the treatment record.

Fuller asked if language could be added so that a different provider from the same practice may perform the procedure.

Morgan stated that she looked at consent as an umbrella.

Johnston suggested that this be reworded and word smithed and discussed at the next meeting.

Fitzgerald wanted clarification that the committee was suggesting that consent was needed at every appointment. Currently consent is verbal, and documentation of verbal assent is made in the file.

Johnston stated that if the patient doesn't acknowledge that it can be an issue. The state doesn't have authority over a non-licensed provider.

Suddeth stated whoever was providing the care should be on the consent form. Mobile dentistry has patients sign a general consent ahead of time. She would hate for this to create barriers. Are there non-licensed providers providing care?

Fitzgerald stated that dental students, who are not yet licensed, provide care.

Shaltry asked the committee if it was acceptable to have a statement that the care might be provided by a student.

Johnston stated that the concern was that the patient doesn't know. That is all we are trying to ensure.

Sullivan asked if the rule was saying a consent must be signed every time.

Johnston stated yes, if it is a new procedure. We are trying to eliminate a “he said, she said” situation.

Fuller stated the bottom line is the patient needs to be informed.

Shaltry stated that it sounded like this rule needs some work. She will work on language with the comments in mind.

The committee agreed.

R. 338.11233 Registered dental hygienist; use of letter “R.D.H”; registered dental assistants; use of letters “R.D.A.”

Shaltry informed the committee that title protection is in the statute. The department proposed to remove this, as it is redundant.

The committee agreed.

R. 338.11239 RDA examination; content; place; passing score

Shaltry informed the committee that she will be meeting with DANB this week and that the credentials review committee and the RDA committee are meeting on August 2, 2024, to discuss exam options.

R 338.11253 Certification of renewal; display.

Shaltry informed the committee that the rule should be removed because it duplicates statute.

No comments from the committee.

Part 3 Education

R 338.11301 Approval of dental educational programs; accreditation standards; adoption by reference.

Shaltry informed the committee that she noticed that CODA accreditation standards in R 338.11301 and throughout the rules were not updated to the most recent versions, and she updated them in the draft. Does the committee agree?

The committee is agreed with the updates.

Shaltry thanked everyone for their time and suggested this was a good place to adjourn.

Small asked if he could make a comment regarding the advertisement rule.

Johnston stated that it should wait until the next meeting when we have time for a good discussion.

9:29 a.m. adjournment.
