Search Tips:

- ***Partial Spelling:** Using Partial Spelling can be helpful for hyphenated or commonly abbreviated names (Will vs. William). At a minimum, enter the first three characters of the patient's First and/or Last Name.
- **Prescription Fill Dates:** The maximum time period for your search is 30 months. If the prescription fill dates are not changed, the time period will default to 2 years.
- **PMP Interconnect Search:** This allows you to search other participating state databases for the patient's records.

To improve the likelihood of finding a specific patient:

- **For out-of-state searches:** Limit your search criteria to only the required fields.
- **For in-state searches:** In addition to the required fields, include additional details such as ZIP code.
