**CONSENT ORDER IN LIEU OF CEASE AND DESIST PROCEEDINGS**

Linda Clegg (“Administrator”), Director of the Corporations, Securities, and Commercial Licensing Bureau (“Bureau”) within the State of Michigan Department of Licensing and Regulatory Affairs, has the authority and responsibility to enforce the Michigan Uniform Securities Act, 2008 PA 551, as amended, MCL 451.2101 *et seq.* (“Act”) and the rules and orders issued thereunder.

BlockFi Lending LLC (“BlockFi”) is a New Jersey-based financial services company that offered and sold interest-bearing digital asset accounts called BlockFi Interest Accounts (“BIAs”), through which investors lend digital assets to BlockFi in exchange for BlockFi’s promise to provide variable monthly interest payment.

State securities regulators, as members of the North American Securities Administrators Association (“NASAA”), formed a working group (the “Multistate Working Group”) and conducted an investigation into whether BIAs involved the offer and sale of unregistered securities by BlockFi to retail investors.

This Consent Order in Lieu of Cease and Desist Proceedings (“Consent Order”) is effective on the issued and entered date and is entered against BlockFi. The Consent Order sets forth alleged violations of the Act and resolves alleged violations of MCL 451.2301 and MCL 451.2401 by BlockFi in the offer and sale of BIAs to Michigan residents.

BlockFi has cooperated with state securities regulators and the Multistate Working Group conducting the investigation by responding to inquiries, providing documentary evidence and other materials, and providing access to facts relating to the investigations.

BlockFi has advised the Multistate Working Group of its agreement to resolve the investigation pursuant to the terms specified in this Consent Order (the “Order”) and pursuant to the multistate resolution recommended by the Multistate Working Group.

BlockFi will cease and desist offering or selling the BIAs or any security that is not federal covered, exempt, or registered to new clients in the United States and cease accepting further investments or funds in the BIAs by current U.S. clients, unless and until the BIAs or other securities are federal covered, exempt, or registered.

BlockFi shall pay up to a total of fifty million dollars (\$50,000,000.00) in settlement payments divided equally among the 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands and paid to each of the 53 Jurisdictions that enter into a consent order pursuant to the terms of BlockFi's agreement with the Multistate Working Group.

BlockFi elects to waive permanently any right to a hearing and appeal under MCL 451.2604(2) and (3) and the Administrative Procedures Act, 1969 PA 306, as amended, MCL 24.201 et seq., with respect to the entry of this Order.

BlockFi admits the jurisdiction of the Bureau in this matter.

Solely for the purpose of terminating the Multistate Working Group investigation and in settlement of the issues contained in this Consent Order, BlockFi, without admitting or denying the findings of fact or conclusions of law contained in this Order, consents to the entry of this Consent Order.

NOW, THEREFORE, the Administrator of the Act enters this Consent Order:

12. On February 14, 2022, BlockFi agreed to cease and desist offering and selling BIAs nationwide to new investors in the United States and cease and desist accepting further investments or funds in the BIAs by current U.S. investors, including in Michigan.

#### THE OFFER AND SALE OF SECURITIES NATIONWIDE

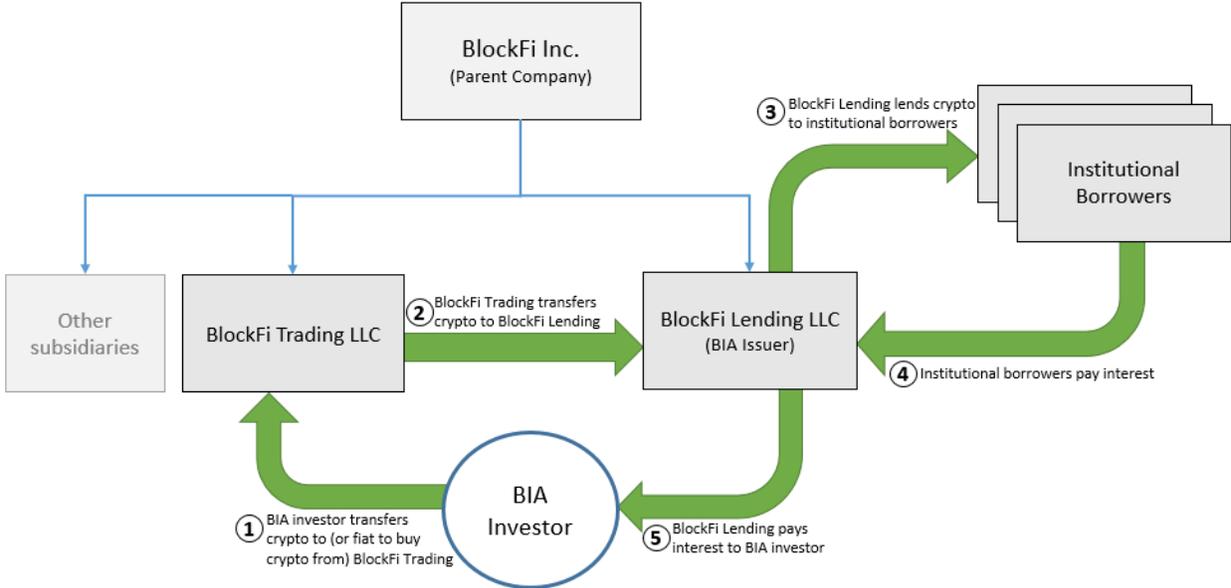

13. From at least March 4, 2019 through February 14, 2022 (the “Relevant Period”), BlockFi has offered and sold securities in the form of interest-bearing digital asset accounts called BIAs and marketed, offered, and sold those securities to Michigan residents.
14. On March 4, 2019, BlockFi publicly announced the launch of the BIA, through which investors could lend digital assets to BlockFi and in exchange, receive interest, “paid monthly in cryptocurrency.” Interest began accruing the day after assets were transmitted to BlockFi and compounded monthly, with interest payments made to accounts associated with each BIA investor, in digital assets, on or about the first business day of each month.
15. Investors in BIAs lent digital assets to BlockFi in exchange for BlockFi’s promise to provide a variable monthly interest payment.
16. BlockFi represented it generated the interest it paid BIA investors by deploying investors’ digital assets in various ways, including loans made to institutional investors, lending U.S. dollars to retail investors, and investing in digital assets, equities, and futures.

17. Under BlockFi’s terms for the BIA, investors:

grant BlockFi the right, without further notice to [the investor], to hold the cryptocurrency held in [the] account in BlockFi’s name or in another name, and to pledge, repledge, hypothecate, rehypothecate, sell, lend, or otherwise transfer, invest or use any amount of such cryptocurrency, separately or together with other property, with all attendant rights of ownership, and for any period of time and without retaining in BlockFi’s possession and/or control a like amount of cryptocurrency, and to use or invest such cryptocurrency at its own risk.

18. BlockFi offered and sold BIAs to obtain digital assets for the general use of its business, namely to use the assets in its lending and investment activities, which generated income both for BlockFi and to pay interest to BIA investors. BlockFi pooled the loaned assets, and exercised full discretion over how much to hold, lend, and invest. BlockFi had complete legal ownership and control over the digital assets loaned to it by BIA investors and advertised that it managed the risks involved.

19. To begin investing in a BIA, an investor could transfer digital assets to the digital wallet address assigned by BlockFi to the investor or purchase digital assets with fiat currency from BlockFi Trading LLC for the purpose of investing in a BIA. BlockFi Trading LLC accepted the digital asset or fiat from the investor, and then transferred the asset to BlockFi. BlockFi did not hold private keys for the investors’ wallet addresses; rather, investors’ digital assets were sent to BlockFi’s wallet addresses at third-party custodians.

20. BIA investors were permitted to withdraw the equivalent to the digital assets they loaned to BlockFi and accrued interest at any time, with some limitations, and could borrow money in U.S. dollars against the amount of digital assets deposited in BIAs.

21. BlockFi adjusted the interest rates payable on BIAs for particular digital assets periodically, and typically at the start of each month. BlockFi set the rates based, in part, on “the yield that [BlockFi] can generate from lending,” to institutional borrowers, and thus interest rates were correlated with the efforts that BlockFi put in to generate that yield. BlockFi periodically adjusted its interest rates payable on the BIAs in part after analysis of current yield on its investment and lending activity. BIA investors could demand that BlockFi repay the loaned digital assets at any time.

22. As of March 31, 2021, BlockFi and its affiliates held approximately \$14.7 billion in BIA investor assets. As of December 8, 2021, BlockFi and its affiliates held approximately \$10.4 billion in BIA investor assets, and had approximately 572,160 BIA investors, including 391,105 investors in the United States.

23. As of December 31, 2019, BlockFi and its affiliates held approximately \$2,198,364 in BIA investor assets from Michigan residents. As of December 31, 2020, BlockFi and its affiliates held approximately \$48,856,150 in BIA investor assets from Michigan residents. As of December 31, 2021, BlockFi and its affiliates held approximately 134,648,211 in BIA investor assets from Michigan residents.

#### MARKETING BLOCKFI'S BIA

24. BlockFi offered and sold the BIA securities to investors, including retail investors, through advertising and general solicitations on its website, [www.blockfi.com](http://www.blockfi.com). BlockFi also promoted distribution of the BIA offering through its social media accounts, including YouTube, Twitter, and Facebook. In addition, through its “Partner” program, an affiliate marketing program in which participants could “earn passive income by introducing your audience to financial tools for crypto investors,” BlockFi extended its distribution of the BIA securities to retail investors through certain offers and promotions.

25. BlockFi regularly touted the profits investors may earn by investing in a BIA. When announcing the BIA, BlockFi promoted the interest earned, promising “an industry-leading 6.2% [annual percentage yield],” compounded monthly. BlockFi described it as “an easy way for crypto investors to earn bitcoin as they HODL.”

26. Within the first few weeks of launching the BIA, BlockFi again touted investors’ potential for profit. On March 20, 2019, BlockFi announced that BIAs experienced significant growth, including from large firms who participated in BIAs “as a way to bolster their returns.” BlockFi asserted that its “mission is to provide the average crypto investor with the tools to build their wealth,” and that it “look[ed] forward to giving even more investors a chance to earn a yield on their crypto.”

27. On April 1, 2019, BlockFi began to “tier” the interest rates that investors received, initially announcing that “BIA balances of up to and including 25 [Bitcoin] or 500 [Ether] (equivalent to roughly \$100,000 and \$70,000 respectively) will earn the 6.2% APY interest rate. All balances over that limit will earn a tiered rate of 2% interest.” Even when changing the interest rates customers receive, BlockFi touted the yields to investors. On August 27, 2021, BlockFi stated that

the adjustments to interest rates are done “with the goal of maintaining great rates for the maximum number of clients.”

28. On January 1, 2021, BlockFi advertised that it had “distributed more than \$50 million in monthly interest payments to [its] clients.”

29. As of November 1, 2021, the interest rates BlockFi paid investors ranged from 0.1% to 9.5%, depending on the type of digital asset and the size of the investment. For example, investors could receive 9.5% in interest for up to 40,000 Tether (“USDT”) and 8.5% for anything over 40,000 USDT, as well as 4.5% interest for up to 0.1 Bitcoin (“BTC”), 1% for 0.1 to 0.35 BTC, and 0.1% for anything over 0.35 BTC.

#### MISREPRESENTATION OF COLLATERALIZATION PRACTICES FOR INSTITUTIONAL LOANS

30. BlockFi’s offer of BIAs included on its website a statement of material fact that was untrue or omitted a statement of material fact necessary to make the statement made not misleading in light of the circumstances under which it was made from March 4, 2019 to August 31, 2021, concerning its collateral practices and, therefore, the risks associated with its lending activity.

31. Beginning at the time of the BIA launch on March 4, 2019 and continuing to August 31, 2021, BlockFi made a statement in multiple website posts that its institutional loans were “typically” over-collateralized, when in fact, most institutional loans were not.

32. When BlockFi began offering the BIA investment, it intended to require over-collateralization on a majority of its loans to institutional investors, but it quickly became apparent that large institutional investors were frequently not willing to post large amounts of collateral to secure their loans.

33. Approximately 24% of institutional digital asset loans made in 2019 were over-collateralized; in 2020 approximately 16% were over-collateralized; and in 2021 (through June 30, 2021) approximately 17% were over-collateralized.

34. As a result, BlockFi’s statement materially overstated the degree to which it secured protection from defaults by institutional borrowers through collateral. Through operational oversight, BlockFi’s personnel failed to take steps to update the website statement to accurately reflect the fact that most institutional loans were not over-collateralized.

35. Although BlockFi made other disclosures on its website regarding its risk management practices, because of BlockFi’s misrepresentations and omissions about the level of risk in its loan portfolio, BIA investors did not have complete and accurate information with which to evaluate the risk that, in the event of defaults by its institutional borrowers, BlockFi would be unable to comply with its obligation to pay BIA investors the stated interest rates or return the loaned digital assets and accrued interest to investors upon demand.

#### FAILURE TO COMPLY WITH REGISTRATION REQUIREMENTS

36. During the Relevant Period, BlockFi's offer and sale of BIAs was not done subject to a preemption, exception, or exemption from registration under MCL 451.2301.

37. During the Relevant Period, BlockFi offered and sold securities in Michigan that were not federal covered, exempt, or registered as required by MCL 451.2301.

38. During the Relevant Period, BlockFi offered and sold securities in Michigan without being registered as a broker-dealer as required by MCL 451.2401.

## **II. CONCLUSIONS OF LAW**

39. The BIAs are securities as defined in MCL 451.2102c(c).

40. During the Relevant Period, BlockFi's offer and sale of securities in Michigan that were not federal covered, exempt, or registered in Michigan violated MCL 451.2301.

41. During the Relevant Period, BlockFi's offer and sale of securities in Michigan without being registered as a broker-dealer violated MCL 451.2401.

42. During the Relevant Period, BlockFi's offer included a statement of material fact that was untrue or omitted a statement of material fact necessary to make the statement made not misleading in light of the circumstances under which it was made on its website concerning its collateral practices and, therefore, the risks associated with its lending activity.

43. The foregoing violations of MCL 451.2301 and MCL 451.2401 constitute the basis for the assessment of a civil fine against BlockFi pursuant to MCL 451.2604(4).

## **III. UNDERTAKING**

44. BlockFi's parent, BlockFi Inc., undertakes and agrees to file with the Bureau an application for registration to offer and sell a new investment product, BlockFi Yield, which BlockFi Inc. intends to register under the federal Securities Act of 1933, as required for a registration by coordination under MCL 451.2303.

45. BlockFi and BlockFi's parent, BlockFi Inc., further undertake and agree to cease and desist offering or selling BIAs or any security that is not federal covered, exempt, or registered to new investors in the United States and cease and desist accepting further investments or funds in the BIAs by current U.S. investors unless and until the BIAs or other securities have been registered by the Bureau or are otherwise exempt.

46. BlockFi's parent, BlockFi Inc., undertakes and agrees to file with the Bureau for registration as a broker-dealer or engage a registered broker-dealer as required by MCL 451.2401 before offering or selling securities, unless otherwise exempt.

47. BlockFi's parent, BlockFi Inc., undertakes and agrees to cease and desist making statements of material fact that are untrue or omitting to make statements of material fact necessary to make other statements made not misleading in light of the circumstances under which they were made.

48. BlockFi undertakes and agrees to pay a civil fine in the amount of \$943,396.22 in installments described in this Consent Order.
