# MICHIGAN

7 8,000 miles of beautifully surfaced highways. . . Land of 5000 fresh water inland lakes. . . Seventy-four state parks . . . Leads in five of the world's great industries: automobiles, agriculture, tourist and resort trade, furniture and mining (copper, salt and iron ore). . . Rapidly being recognized as a leading oil producing state. . . Population 4,750,000. . . One of world's greatest fruit producing areas,—cherries, peaches, pears, berries and grapes. Home of the Northern Spy, Snow Apple, and Baldwin. Incidentally, compare our liquor prices. You will find a wider variety at cheaper prices than in any other state of the Union.

Many glorious holidays and  
Indian summers, visions of  
Crooked pathways and glamorous  
Heights, airs, tangy and piquant  
In the swift odor of pines and  
Glad sycamores, soft footfalls of  
Ancient Indian history printed deftly  
Near sands paved silver by the moon

Mute touches of nature's lav-  
ish brush. . . Michigan. . . in a  
Circle of-glinted waters called  
Her Great Lakes, where legends of  
Indian wars and echoes of wars play  
Games with lightnings of the skies  
And where white men first pushed  
New civilizations into America
