Michigan State Capitol:

This image, with flags flying to indicate that both chambers of the legislature are in session, may have originated as an etching based on a drawing or a photograph. The artist is unknown. The drawing predates the placement of the statue of Austin T. Blair on the capitol grounds in 1898.

PAGE GRAPHICS

Capitol Dome:

The architectural rendering of the Michigan State Capitol's dome is the work of Elijah E. Myers, the building's renowned architect. Myers inked the rendering on linen in late 1871 or early 1872. Myers' fine draftsmanship, the hallmark of his work, is clearly evident.

Because of their size, few architectural renderings of the 19th century have survived. Michigan is fortunate that many of Myers' designs for the Capitol were found in the building's attic in the 1950's. As part of the state's 1987 sesquicentennial celebration, they were conserved and deposited in the Michigan State Archives.

East Elevation of the Michigan State Capitol:

When Myers' drawings were discovered in the 1950's, this view of the Capitol – the one most familiar to Michigan citizens – was missing. During the building's recent restoration (1989-1992), this drawing was commissioned to recreate the architect's original rendering of the east (front) elevation.

Emergency rules published in an issue of the *Register* are noted in the annual supplement to the Code.

The Department of Licensing and Regulatory Affairs will hold a public hearing to receive public comments on proposed changes to the Construction Codes- Part 8. Electrical Code rule set.

Part 8 of the Construction Code currently adopts by reference the 2017 edition of the National Electrical Code (NEC), which establishes standards for the safe installation of electrical wiring and equipment. Part 8 also includes rules that amend the NEC to address electrical practices that are specific to Michigan. The 2023 version of the NEC, which is the most current edition, contains provisions relating to revised standards and new materials. The proposed rules will adopt by reference the 2023 edition of the NEC with amendments, deletions, and additions deemed necessary for use in Michigan.

The NEC is one of the component codes of the State Construction Code. Rules will be updated to allow the industry to take full advantage of new and improved materials and technologies that have come into use since the 2017 version. Rules may also be rescinded as a result of updates to the national standards.

By authority conferred on the proposed rules is found in Section 4 of the Stille-DeRosset-Hale Single State Construction Code Act, 1972 PA 230, (MCL 125.1504(5)), and Executive Reorganization order Nos. 1996-2, 2003-1, 2008-4, and 2011-4, MCL 445.2001, 445.2011, 445.2025, and 445.2030. MCL 125.1504(5) requires that the director add, amend, and rescind rules to update the code, not less than once every three years, to coincide with the national code change cycle.

The proposed rules will take effect 120 days after filing with the Secretary of State. The proposed rules are published on the State of Michigan's website at www.michigan.gov/ARD and in the 9/15/2023 issue of the Michigan Register. Copies of these proposed rules may also be obtained by mail or electronic mail at the following email address: Lara-bcc-rules@michigan.gov.

Comments on these proposed rules may be made at the hearing, by mail, or by electronic mail at the following addresses until 9/28/2023 at 05:00PM.
