

Michigan Department of Licensing and Regulatory Affairs
Workers' Compensation Agency

2016 WEEKLY BENEFIT TABLES

(Based on 80% of after-tax average weekly wage)

The following tables are provided in accordance with Section 418.313(2) of the Worker's Disability Compensation Act, which states that the director shall publish tables of the average weekly wage and 80% after-tax average weekly wage. These tables shall be considered conclusive for the purposes of determining the 2016 weekly compensation rates and for the purposes of converting the average weekly wage into 80% of after-tax average weekly wage.

The 2016 maximum weekly compensation rate is \$842.00 based on a State Average Weekly Wage of \$935.00.

DIRECTIONS

1. Find the employee's average gross weekly wage in either the right or left column.
2. Determine the employee's tax filing status. There are four statuses provided: single; married filing jointly; single head of household; and married filing separately. Determination of the correct filing status shall be based on the employee's status **on the date of injury** and the eligibility criteria for filing status used for federal income tax purposes. Because the election of filing status is discretionary to the taxpayer, care must be taken in applying the married separate filing status. A carrier should have sufficient evidence of the appropriateness of this determination or prior agreement of the injured employee. It is recommended that only the single and married filing jointly statuses be applied unilaterally by the carrier.
3. Determine the employee's number of dependents. NOTE: Deduct one dependent for death cases. Example: A decedent with three dependents would be represented in the "two" dependency column. See sections 418.321 and 331 regarding dependents of deceased workers.
4. Match the appropriate average weekly wage and filing status with the appropriate number of dependents.
5. The figure shown is the weekly compensation rate and represents 80% of after-tax average weekly wage.
6. To compute partial compensation benefits for dates of injury where the injured worker has returned to work making less than their average weekly wage at the time of injury, apply the following tables to the average weekly wage before and after the injury. The difference is the partial compensation rate. (For dates of injury January 1, 1982 through December 18, 2011, see section 361(1). For dates of injury December 19, 2011 through the present, see sections 418.301(9)(c) and 401(7)(c) of the Worker's Disability Compensation Act).
7. To compute adjusted wage loss benefits for injury dates on or after December 19, 2011, where the injured employee has reduced post injury wage earning capacity (PIWEC) as provided in MCL 418.301(8) and 401(6), the weekly rate payable is 80% of the difference between the injured employee's after-tax average weekly wage before the personal injury and 100% of the employee's wage earning capacity after the personal injury but not more than the maximum weekly rate determined under section 355. (See also Agency form WC-701, side 2)
8. These tables include deductions for FICA and state income tax. The WCA calculation program can be used to calculate benefits subject to coordination pursuant to section 354 of the Worker's Disability Compensation Act that are not subject to those taxes.
9. Report commencement, change and termination of wage loss benefits to the Workers' Compensation Agency on form WC-701.

NOTE: The 2016 maximum weekly compensation rate is \$ 842.00. All weekly compensation rates indicated in the table are subject to this maximum.
