

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Industrial Hygiene is the science devoted to the anticipation, recognition, evaluation, and control of health hazards in the workplace. This course will discuss the various categories of health hazards and their routes of exposure. Participants will learn terminology and fundamental concepts essential to understanding industrial hygiene standards and studies.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

By the end of the course Attendees will:

- ▶ Explain AREC – Anticipation, Recognition, Evaluation and Control, the industrial hygiene process.
- ▶ Evaluate a Safety Data Sheet (SDS) for data used in AREC.
- ▶ Apply the Hierarchy of Controls to various health hazards.
