

An Informative Two-day Seminar:

Parts 23 and 24 -

Hydraulic and Mechanical Power Presses

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This two-day seminar is specifically for those who supervise the use of, or are responsible for operating and maintaining power presses primarily in metalworking industry. Attendees receive a comprehensive review of MIOSHA General Industry Safety Standards Part 23 Hydraulic Power Presses and Part 24 Mechanical Power Presses. The seminar will cover recognition and evaluation of hazards with appropriate selection of safeguarding applications and methods to promote employee safety.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Discuss the scope of the standard and selected definitions.
- ▶ Discuss employer responsibilities, injury reporting and inspection/maintenance requirements.
- ▶ Identify point of operation guards and devices for operator protection.
- ▶ Review die design and die setting safety.
- ▶ Examine potential health hazard associated within the industry.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Michael Brodzik joined MIOSHA in 2005 as a Safety Officer in the General Industry Safety and Health Division. His duties and responsibilities included inspecting workplaces for compliance with State occupational safety rules; investigating employee complaints, industrial accidents, and workplace fatalities.

In 2016, Michael was appointed to the position of an Occupational Safety Consultant in MIOSHA's Consultation Education and Training Division. He advises businesses, general industry employers, workgroups, and governmental agencies and provides consultation in areas of occupational safety hazards. He develops and conducts training seminars and workshops, and conducts workplace safety and health hazard surveys.

Michael has a Master's and Bachelor's Degree in the biological sciences from Wayne State University.

Michael Brodzik
Senior Occupational Safety Consultant
MIOSHA, CET Division
