

# MIOSHA Construction Part 10 - Cranes and Derricks

## 1 Who Should Attend . . .

This live virtual seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This course will review the MIOSHA regulations found in Part 10. Cranes and Derricks. Rules regarding crane assembly and disassembly, inspections, safe operation, power line safety, and required training, certifications and qualifications will be covered. The course will describe current best practices and regulatory changes with emphasis on recognizing hazards and complying with the 2016 revision to the Part 10 standard. **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**

### Agenda

*We offer a flexible program agenda to emphasize the construction topics you want most.*

- ▶ Recognize hazards of cranes in construction.
- ▶ Discuss assembly, inspection, operational, and disassembly rules.
- ▶ Interpret training requirements for operators, riggers, and signal persons.
- ▶ Practice creating procedures that support compliance with Part 10.

# Facilitator

Jim Getting was appointed to MIOSHA's Consultation Education and Training (CET) division in 2007 and provides construction safety services for the Southwest counties of Michigan. Jim has over 20 years of experience as a construction safety professional. Prior to joining CET, Jim worked as Safety Director for several companies, encountering a multitude of construction safety hazards. Jim learned first-hand the challenges of training workers, developing safety plans, inspecting worksites, and developing written programs to ensure worker safety and complying with MIOSHA standards.

Jim has a Doctoral degree in Industrial and Organizational Psychology from Auburn University. His primary specialty is the managing of safety and motivation of workers through behavioral safety methods. By utilizing these straight-forward and effective techniques and his field experience, Jim provides training and consultation to assist companies in developing positive and proactive safety programs.
