

An Informative Full-day Seminar:

Parts 472 and 554 -

Medical Services and First Aid, Bloodborne Infectious Diseases

1 *Who Should Attend . . .*

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 *MIOSHA Training Institute*

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 *What You'll Learn . . .*

Exposure to bloodborne infectious diseases is identified as a significant source of occupational illness. The lack of first aid and medical services can lead to serious physical harm or death. This full day course was developed to teach participants: the requirements of Part 472 Medical Services and First Aid, and Part 554 Bloodborne Infectious Diseases; to determine if facilities and employees are covered by the standards; to prepare a written exposure control plan; and, to ensure employees receive proper care following an occupational exposure or injury. This course is designed for general industry with emphasis for healthcare facilities.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Determine the applicability of Part 554 Bloodborne Infectious Diseases standards to specific personnel and facilities.
- ▶ Evaluate written exposure control plan.
- ▶ Identify proper engineering, work practices, and personal protective equipment controls to reduce or eliminate exposure.
- ▶ Implement a program for proper management, decontamination, and disposal of contaminated materials.
- ▶ Evaluate availability and accessibility of exposed and injured employees to first aid and medical services.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Anthony Smykla joined the CET Division on November 20, 2017. Anthony serves as an Industrial Hygienist in the Training and Consultation Program in 21 Northern Lower Peninsula counties. He provides occupational health consultation and advice to business, industry, construction, unions, employee groups, schools, colleges, municipalities, counties, and state agencies.

Anthony comes from private industry as an employee of Bureau Veritas of North America working as Industrial Hygiene Manager with full responsibility for all of the Detroit Region's Industrial Hygiene Services of his firm. He was responsible for the coordination of industrial hygiene services for some of his firm's largest clientele.

Anthony holds a bachelor's degree in Biology and a master's degree in Industrial Hygiene and Toxicology. He also holds a Juris Doctorate in Law and is a licensed attorney.

Anthony Smykla
Industrial Hygienist,
MIOSHA, CET Division
