

An Informative Full-day Seminar:

Parts 472 and 554 -

Medical Services and First Aid, Bloodborne Infectious Diseases

1 *Who Should Attend . . .*

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 *MIOSHA Training Institute*

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 *What You'll Learn . . .*

Exposure to bloodborne infectious diseases is identified as a significant source of occupational illness. The lack of first aid and medical services can lead to serious physical harm or death. This full day course was developed to teach participants: the requirements of Part 472 Medical Services and First Aid, and Part 554 Bloodborne Infectious Diseases; to determine if facilities and employees are covered by the standards; to prepare a written exposure control plan; and, to ensure employees receive proper care following an occupational exposure or injury. This course is designed for general industry with emphasis for healthcare facilities.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Determine the applicability of Part 554 Bloodborne Infectious Diseases standards to specific personnel and facilities.
- ▶ Evaluate written exposure control plan.
- ▶ Identify proper engineering, work practices, and personal protective equipment controls to reduce or eliminate exposure.
- ▶ Implement a program for proper management, decontamination, and disposal of contaminated materials.
- ▶ Evaluate availability and accessibility of exposed and injured employees to first aid and medical services.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Jennifer Clark-Denson joined MIOSHA in September of 1998 where she spent time as a General Industry Safety Officer with responsibility for inspecting a wide variety of work operations to observe and identify potential violations of MIOSHA safety standards.

Then Jennifer served as a Senior Safety Consultant with CET (Consultation Education and Training) for twenty-five years, during which time she served on many MIOSHA work committees, authored fact sheets, championed and piloted several MTI classes and assisted in the mentoring of new MIOSHA personnel.

Currently, Jennifer serves as a CET industrial hygienist, responsible for providing occupational health services to Lenawee, Monroe, Wayne, and Washtenaw counties. She has both a bachelor's degree in Industrial and Environmental Health Management from Ferris State University, and a master's degree in Human Resource Management from Davenport University.

Jennifer Clark-Denson
*Industrial Hygienist,
MIOSHA, CET Division*
