

An Informative Full-day Seminar:

# *MIOSHA General Industry Safety Documentation: Are You in Compliance?*

## *1 Who Should Attend . . .*

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## *2 MIOSHA Training Institute*

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## *3 What You'll Learn . . .*

This course is designed to assist learners understand the basic requirements for their places of employment concerning documentation and retention under MIOSHA regulations.

As an introduction to MIOSHA's written requirements, this course will provide learners with an opportunity to determine what safety programs apply to their places of employment and determine if they need to attend one or more of the Level II General Industry Compliance courses.

Programs that require written policies or documentation such as Reporting and Recording of Occupational Injuries and Illnesses, Emergency Exits, Personal Protective Equipment, Control of Hazardous Energy Sources (LOTO), Permit Required Confined Spaces (PRCS) and Hazard Communications will be discussed. Required inspections and standards that require permits from the employer will also be reviewed. Most of the above listed programs have a full day MIOSHA Training Institute (MTI) Level II course that will cover each standard in-depth. Student will be encouraged to attend appropriate Level II courses based on their self-assessments.

### **Agenda**

*We offer a flexible program agenda to emphasize the health and safety topics you want most.*

Participants will learn to:

- ▶ Identify General Industry (GI) safety standards that require a written program.
- ▶ Describe and discuss key elements of documentation that are essential in each required written program.
- ▶ Discuss GI safety standards that require an inspection.
- ▶ Review of GI Safety Standards that require permitting from the employer and what needs to be documented on the permits.

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

# Facilitator

Chris Johnson is an Occupational Safety Consultant with the Consultation Education and Training Division of MIOSHA. Chris currently provides consultation and training services for Southwest Michigan counties.

Before working with the State of Michigan, Chris was a Safety Chair at a MVPP STAR manufacturing facility in West Michigan. His responsibilities included incident investigation, safety training, employee engagement, and developing and working with different employee lead safety teams in order to enhance the safety culture. Chris also has previous experience in the insurance industry, working with accident and liability investigations.

Chris is a graduate of Lake Superior State University with a Bachelor of Science degree in Fire Science and is a licensed fire fighter and emergency medical technician in the State of Michigan.
