

An Informative Full-day Seminar:

Parts 6, 33, and 433 Personal Protective Equipment Standards for General Industry and Construction

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This course will provide the participant an overview of MIOSHA personal protective equipment (PPE) requirements contained in MIOSHA General Industry Parts 33 and 433, as well as MIOSHA Construction Part 6. Methods for conducting and documenting hazard surveys, PPE selection and maintenance criteria, and PPE training requirements are described. Sample PPE photos and scenarios will be included and discussed in the program. Tools for PPE hazard surveys will be provided to assist students in conducting and documenting hazard surveys in the workplace.

Participants will be able to:

- ▶ Differentiate between the MIOSHA construction, general industry and occupational health standards for personal protective equipment (PPE).
- ▶ Perform and document a simple PPE hazard survey.
- ▶ Provide PPE training according to the MIOSHA Standards.
- ▶ Discuss how to select and use the appropriate PPE in the workplace.
- ▶ Analyze some hazards found in the workplace.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

This course has been approved for both residential builders pre-licensure and continuing safety training requirements.

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

Facilitator

Brian Roulier joined the General Industry Safety and Health Division of MIOSHA in 2018 as an Industrial Hygienist. For more than four years, he conducted comprehensive inspections in high hazard industries, addressed employee complaints, and investigated workplace injuries and fatalities.

Brian is currently an Industrial Hygiene Consultant in MIOSHA's Consultation Education and Training Division covering eight counties in Southeast Michigan. In this capacity, he advises construction and general industry employers, workgroups, and governmental agencies in areas relating to occupational health hazards and compliance with MIOSHA Health Standards. He also conducts on-site hazard surveys and develops and delivers training seminars.

Prior to joining MIOSHA, Brian worked as an industrial hygiene consultant performing exposure assessments, asbestos and lead building inspections, and contractor oversight during abatement projects.

Brian Roulier
Sr. Industrial Hygienist,
MIOSHA, CET Division
