

## An Informative Full-day Seminar:

# Machine Guarding and Hazard Identification

## 1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This program is designed for general industry participants, (maintenance, safety and health professionals, and management personnel). This course familiarizes the participant with various types of common machinery and the related safety hazards. The course enables participants to recognize hazards such as those created by nip points pinch points, points of operations, and rotating or reciprocating parts, while providing options for achieving regulatory compliance.

### Agenda

*We offer a flexible program agenda to emphasize the health and safety topics you want most.*

- ▶ Identify common hazards found in industry.
- ▶ Participants will be able to conduct self-inspections and identify safety or health hazards in the workplace.
- ▶ Discuss best practices for employee protection from recognized hazards.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

# Facilitator

Michael Brodzik joined MIOSHA in 2005 as a Safety Officer in the General Industry Safety and Health Division. His duties and responsibilities included inspecting workplaces for compliance with State occupational safety rules; investigating employee complaints, industrial accidents, and workplace fatalities.

In 2016, Michael was appointed to the position of an Occupational Safety Consultant in MIOSHA's Consultation Education and Training Division. He advises businesses, general industry employers, workgroups, and governmental agencies and provides consultation in areas of occupational safety hazards. He develops and conducts training seminars and workshops, and conducts workplace safety and health hazard surveys.

Michael has a Master's and Bachelor's Degree in the biological sciences from Wayne State University.
