

An Informative Full-day Virtual Instructor-led Seminar:

Conveyors: Hidden Hazards

1 Who Should Attend . . .

This virtual instructor-led program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIO SHA).

2 MIO SHA Training Institute

MIO SHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIO SHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This dynamic one-day seminar is intended for employers committed to ensuring their facility meets or exceeds the requirements for employee safety contained in MIO SHA General Industry Safety Standard, Part 14 Conveyors. Attendees will recognize, from multiple examples, the types of conveyors commonly found in the workplace. Detect the associated hazards that employees are potentially exposed to, identify the appropriate guarding and worker protection for those hazards. Review the safety related design, electrical, and specific provisions for the identified conveyors. During group activity, evaluate and analyze fatality case studies for contributing factors and rule violations. **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Recognize the types of conveyors and hazards associated.
- ▶ Identify and apply with MIO SHA standards safety practices.
- ▶ Review industry best practices for guarding conveyors.

People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Deborah Ziel is a Senior Occupational Safety Consultant who joined the Consultation Education and Training Division of MIOSHA in 2006. Before that, she had over a decade of safety and health experience in private industry. Deborah currently provides consultation and training services for mid-west Michigan.

Before working for the State of Michigan, Deborah was an Environmental Health and Safety Specialist in a private manufacturing facility performing safety and health functions in two Michigan Voluntary Protection Program (MVPP) STAR sites. This included, but was not limited to, injury management and record keeping, program development and implementation, regulatory and best practice training, chemical management program, industrial hygiene coordination, hazard recognition program, and safety team development and facilitation. Deborah is a graduate of Grand Valley State University with a Bachelor of Science degree in Occupational Safety & Health.
