

An Informative Full-day Seminar:

Part 380 -

Occupational Noise Exposure

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This seminar is designed to give participants an understanding of the requirements of MIOSHA's Part 380 - Occupational Noise Exposure. Topics covered include: definition of noise, hearing loss and how it can occur, determining when and why to conduct noise monitoring, determining when a Standard Threshold Shift (STS) occurs and when to record it on the 300 log, noise training requirements, noise control technologies, and how to select proper hearing protection. Participants will have "hands-on" opportunities to use noise dosimeters/sound level meters and calibrators and assess noise levels associated with actual noise sources.

Required Class For
Occupational Health
MTI Certificate

Agenda

We offer a flexible program agenda to emphasize the health & safety topics you want most.

- ▶ Explain the requirements of MIOSHA's Part 380 - Occupational Noise Exposure Standard.
- ▶ Conduct "hands-on" noise monitoring using noise dosimeters w/ actual noise sources.
- ▶ Describe what a Standard Threshold Shift (STS) is and when it must be recorded on MIOSHA Injury and Illness Logs.
- ▶ Determine how to select and use appropriate hearing protection.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Rory Huddas joined MIOSHA in 2014 as an Industrial Hygienist in the General Industry Safety and Health Division. In that capacity, he conducted inspections at high-hazard industries, investigated workplace fatalities and reports of occupational illnesses, and responded to questions and concerns about occupational health issues.

In 2019, Rory was appointed to the position of Industrial Hygienist with MIOSHA's Consultation, Education and Training Division. In this position, he consults with and advises general industry employers, workgroups, and governmental agencies in the areas of occupational health hazards. He also conducts hazard surveys and delivers training seminars and workshops.

Prior to working for MIOSHA, Rory was an Environmental, Health and Safety Professional in the manufacturing industry. He has a Bachelor's of Science Degree from Grand Valley State University in Occupational Safety and Health Management and was the President of the Student Body of the American Society of Safety Engineers (ASSE).
