

## An Informative Two-day Seminar:

# Parts 17, 39, and 40 - Electrical Standards for General Industry and Construction

## 1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This two-day seminar will thoroughly discuss the requirements of MIOSHA safety standards for electrical related work practices for both construction and general industry. Topics include complete review and interpretations of the standards, electrical safety case studies, important definitions, description of hazardous classifications, interactive discussions, and exercises designed to enforce the concepts presented. It is strongly recommended that students review MIOSHA General Industry Standards Parts 39 and 40 at [www.michigan.gov/mioshastandards](http://www.michigan.gov/mioshastandards) before attending this seminar.

Required Class for  
General Industry  
Level Two  
MTI Certificate

### Agenda

*We offer a flexible  
program agenda  
to emphasize the  
health and safety  
topics you  
want most.*

- ▶ General Discussion of Electrical Hazards
- ▶ Requirement for Electrical Installations
- ▶ Grounding and GFCI
- ▶ Guarding and Identification
- ▶ Safe Work Practice and Training
- ▶ Proper Use of Cords and Cables
- ▶ Hazardous Location Requirements

***This course has been approved for both residential builders  
pre-licensure and continuing safety training requirements.***

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

# Facilitator

Chris Johnson is an Occupational Safety Consultant with the Consultation Education and Training Division of MIOSHA. Chris currently provides consultation and training services for Southwest Michigan counties.

Before working with the State of Michigan, Chris was a Safety Chair at a MVPP STAR manufacturing facility in West Michigan. His responsibilities included incident investigation, safety training, employee engagement, and developing and working with different employee lead safety teams in order to enhance the safety culture. Chris also has previous experience in the insurance industry, working with accident and liability investigations.

Chris is a graduate of Lake Superior State University with a Bachelor of Science degree in Fire Science and is a licensed fire fighter and emergency medical technician in the State of Michigan.

Presenters: Chris Johnson and Augustine Syrový, Senior Occupational Safety Consultants; MIOSHA, CET Division
