

MARQUETTE REPLACEMENT HOSPITAL

Partnership Signing Date: December 15, 2016

This new partnership is between MIOSHA, Skanska Closner a Joint Venture, the Upper Michigan Building & Construction Trades Council, and Partnering Subcontractors with their respective trade union employees and involves the construction of the new Marquette replacement hospital. The project will result in a new 542,817 square foot, 265-bed replacement facility. The facility will include approximately 146,000 square feet of diagnostic and therapeutic services; 180,000 square feet of patient care services; 15,000 feet of administrative support services; 47,000 square feet of operational support services; a new central power plant; and mechanical, electrical and telecommunications areas. Additionally, the project will include a 97,224 square foot adjoining medical office building, and a 172,125 square foot parking structure.

Skanska Closner, the partnering employers, and unions will be committed to the Site-Specific Safety and Health Program that is designed to meet the needs of the ever-changing conditions which are common to the construction industry.

- Daily Hazard Analyses are to be completed and submitted to *Skanska Closner* prior to each shift and prior to the beginning of critical work.
- Contractors shall provide a Competent and/or Qualified Person for work operations as identified by MIOSHA standards and/or *Skanska Closner*.
- *Skanska Closner* and the partnering employers on this project will uniformly enforce a disciplinary action plan for employees who fail to work in a safe manner. Automatic suspension/dismissal from this project shall result from any willful or deliberate violation of safety rules or safety policies and procedures. Adherence to All Safety Policies, procedures, and MIOSHA standards.
