

Request for Fiscals Application Scoring Rubric

Objective: Select three (3) fiscal agents by December 15, 2021

Solicitation/Submission Method: [FormSite](#)

Points Possible: 20 points

Entity Information

In order to submit the application all entity information must be complete. Each applicant must pick one action area that they wish to commit to:

1. Elevate **Mathematics** as the language of STEM and a tool for STEM exploration.
2. Ensure that students have **Science and Engineering Literacy** as a 21st century skill.
3. Emphasize the importance of and expand access to high-quality **Computer Science** experiences.

Each action area must also connect to career exploration in formal and informal K-12 education settings across the state and commit to supporting the action area with partners outside of the region.

Commitment

The application describes their interest in the selected action area as it relates to their regional education and workforce needs. It describes its vision and commitment to moving forward the goals of the selected action area for the next 5 years not only within their region but also statewide. This includes a description of any past and current statewide leadership in fiscal and/or project management.

Y Description incomplete (0 points)	Y Description complete but not necessarily convincing (1-5 points)	Y Description complete and convincing (6-10 points)
-------------------------------------	--	---

Capacity

The application describes the capacity of the entity to provide statewide leadership and to grow a statewide network of partners focused on the selected action area. It describes the capacity of the entity to successfully manage grant and other funding, including evidence from past fiscal audits.

Y Description incomplete (0 points)	Y Description complete but not necessarily convincing (1-5 points)	Y Description complete and convincing (6-10 points)
