Critical Industry Program

The Critical Industry Program (CIP) provides qualified investments to qualified businesses for deal-closing, gap financing, or other economic assistance to create or retain qualified jobs as a result of a technological shift in product or production or make capital investments, or both, in Michigan as determined by the Michigan Strategic Fund board. Administered by the MEDC on behalf of the Michigan Strategic Fund (MSF), this tool provides access to grants, loans, or other economic assistance.

The Michigan Strategic Fund Act requires the MSF to submit a report on CIP activities that occurred the previous fiscal year. This report addresses the reporting requirements for FY 2022. It also includes cumulative activity as of September 30, 2022.

Below is a detailed spreadsheet (Exhibit 1) showing the specifics of each approved project. The information contained in this report is based on data submitted by companies. All project milestones and certificate requests are reviewed and verified through a consistent compliance process. Where applicable, job creation numbers in this report are cross-referenced against recent project milestones and certificate requests. The column titled "Incentive Stage" includes the following stages: Monitoring, Ended, Terminated and Repayment. Monitoring means that the incentive is active. Ended means the company has fulfilled its obligations under the agreement and the incentive has expired. Terminated means the agreement has been terminated prior to the end date stated in the agreement. Repayment means the company is in default of its agreement and has triggered repayment of all or a portion of the previously disbursed funds. Once a company has repaid all funds owed to the MSF under an event of default, the status is changed to Terminated.

Since October 1, 2021, three projects have been approved by the MSF board.

Strategic Site Readiness Program

The Strategic Site Readiness Program (SSRP) provides financial incentives to eligible applicants to conduct eligible activities on, or related to, strategic sites and mega-strategic sites in Michigan, for the purpose of creating a statewide inventory of investment-ready sites to attract and promote investment in Michigan. Administered by the MEDC on behalf of the Michigan Strategic Fund (MSF), the SSRP provides access to grants, loans, and other economic assistance.

The Michigan Strategic Fund Act requires the MSF to submit a report on SSRP activities that occurred the previous fiscal year. This report addresses the reporting requirements for FY 2022. It also includes cumulative activity as of September 30, 2022.

Below is a detailed spreadsheet (Exhibit 1) showing the specifics of each approved project. The information contained in this report is based on data submitted by companies. All project milestones and certificate requests are reviewed and verified through a consistent compliance process. Where applicable, job creation numbers in this report are cross-referenced against recent project milestones and certificate requests. The SSRP is not a job retention program, therefore, there is no information to report for the number of retained jobs committed or projected, the actual number of retained jobs or the average annual salary for retained jobs. The column titled "Incentive Stage" includes the following stages: Monitoring, Ended, Terminated and Repayment. Monitoring means that the incentive is active. Ended means the company has fulfilled its obligations under the agreement and the incentive has expired. Terminated means the agreement has been terminated prior to the end date stated in the agreement. Repayment means the company is in default of its agreement and has triggered repayment of all or a portion of the previously disbursed funds. Once a company has repaid all funds owed to the MSF under an event of default, the status is changed to Terminated.

Since October 1, 2021, two projects have been approved by the MSF board.
