⁹ The amount includes benefits paid to impostors for the period of June 1, 2013, through December 31, 2022, that have been identified as of January 28, 2023. There are outstanding criminal matters pending and investigations still in progress for benefits paid during the period of January 1, 2016, through December 31, 2022. As noted in a December 29, 2021, report prepared by Deloitte, For the period March 1, 2020, to September 30, 2021, an estimated \$2.7-\$2.8 billion was paid to claims involving likely impostor fraud. Of importance, it is estimated that most of those dollars paid were federal benefits from federal programs created during 2020. As the criminal matters conclude and work continues by the Agency, the dollar amount of benefits paid to impostors for the period of June 1, 2013, through December 31, 2021, will be updated in future reports.

¹⁰ The total amount of benefits recovered from impostors is the restitution amounts per court orders during calendar year 2022. Court orders are obtained through the judicial process because of investigation work completed by the Unemployment Insurance Agency Investigations Division in cooperation with multiple enforcement agencies including the Office of Inspector General for the Department of Labor, United States Attorneys' Office, Michigan State Police, United States Postal Inspector Services Office, and other enforcement agencies. In 2022, given the minimal criminal activity experienced in Michigan during the last three quarters of 2018, all of 2019, and the first two months of 2020, in addition to the pandemic impacting or delaying the judicial process on open and new matters, minimal court orders were issued impacting state claims for unemployment benefits.
