Unemployment Insurance Agency Advocacy Program

2023 Annual Report Updated

The Advocacy Program was created by the enactment of 1989 Public Act 226, which added Section 5a to the Michigan Employment Security Act (MES Act). The Advocacy Program's purpose is to provide information, consultation, and representation services to the unemployed workers (claimants) and the employers who request assistance as an appeal to an administrative law judge. The Advocacy Program began providing services in 1991 and since then, over 260,508 customer cases have been opened and closed.

The appropriation for this program is \$1.5 million. The law requires that a maximum of 60% (\$900,000) of the appropriation be used for claimant representation and a maximum of 40% (\$600,000) of the appropriation be used for employer representation.

- A. During CY 2023, 2,266 claimant cases were provided advocacy services.
- B. During CY 2023, 1,993 employers were provided with advocacy services.
- C. The program expenditures incurred to serve claimants totaled \$342,935.00 which is 22.86% of that allotted portion of the appropriation.
- D. The program expenditures incurred to serve employers totaled \$285,480.00 which is 19.03% of the allotted portion of the appropriation.
- E. The total number of advocacy cases increased from 2022 to 2023. There was an increase in cases which were not heard due to the Covid 19 pandemic quarantine restrictions. The number of claimant cases increased by approximately 67.36% from the previous year. The number of employers receiving services increased by approximately 137.26%. It is expected employers and claimants will continue to seek Advocacy Services and assistance with representation for their hearings.

The advocates provide eligible customers with consultation and representation. During a consultation, the advocate is required to discuss the issue(s) involved, review documentation, and help the customer determine if witnesses are necessary for the hearing. The advocate also explains the hearing process and what to expect during the hearing. As a result, the parties are better prepared to present their case.

The Advocacy Program does not provide representation services at the hearing if the advocate determines the case lacks merit. The Advocate determines if the appeal has merit based on a reasonable application of the MES Act and precedent case law. If after consulting with the customer, the advocate determines that the case lacks merit, the advocate must advise their customer accordingly. At times, claimants and employers decide to withdraw their appeal after consulting with an advocate. This helps to reduce the number of hearings before the administrative law judges.

Due to a successful recruiting campaign in 2022, the Advocacy Program contracted six
