Allowable Cost Policy

Effective July 1, 2024

I. INTRODUCTION

The State School Aid Act, Section 107 and the federal Workforce Innovation and Opportunity Act (WIOA) Title II, Adult Education and Family Literacy Act allocate funding for adult education instructional programs and allowable training activities. Funds allocated under these acts are awarded by the Michigan Department of Labor and Economic Opportunity, Workforce Development (LEO-WD) to eligible educational entities that are expected to operate cost effective adult education and family literacy programs with detailed and transparent budgets.

II. PURPOSE

This policy establishes allowable use of Section 107 and WIOA Title II funding. All state and federally funded fiscal agents and adult education providers must expend funds in accordance with the requirements and guidelines detailed in this policy.

III. POLICY GUIDELINES

The State School Aid Act, Section 107 and WIOA Title II funds are restricted to adult education and literacy instructional programs and allowable training activities as authorized under each of these acts. Fiscal agents and adult education providers are prohibited from using these funds for any other purpose.

In general, to be an allowable expenditure, a cost must meet the following principles:

- Be necessary and reasonable.
- Be authorized and not prohibited under state or local laws or regulations.
- Be allocable to the program.
- Be adequately documented.

LEO-WD reserves the right to approve or deny any cost item and to determine if a cost item is allowable, allocable, reasonable, and necessary. If it is determined that funds are not used in accordance with this policy, then the funds in question may be recaptured.

Program and Administrative Costs

It is the expectation of LEO-WD that the funds are primarily used for instruction and program costs. **Under WIOA Title II, local administrative costs are limited to a maximum of five (5) percent of the grant award unless otherwise negotiated with LEO-WD.**

Allowable Cost Policy

Effective July 1, 2024

Program and administrative costs are defined as follows:

- Program costs are the costs associated with the direct provision of services to program participants. Program activities include, but are not limited to, participant assessment and instruction, classroom supplies and materials, data entry, support services, and building operations and maintenance.
- Administrative costs are the costs associated with performing activities or functions that are not related to the direct provision of services to program participants. Administrative costs include, but are not limited to, supervision and direction, professional development, and business services. Under WIOA Title II, these costs may also include indirect administrative costs, providing services in alignment with local workforce plans, and contributing to infrastructure costs of the one-stop delivery system.

For more detailed information on program and administrative costs, refer to the Section 107 Function Code List and the WIOA Function Code List.

Budget and Expenditure Approval

All funded activities must be within Section 107 and/or WIOA Title II guidelines, as applicable. Fiscal agents are required to complete detailed and transparent budgets in the Section 107 and/or WIOA Title II application in the Next Generation Grant, Application, and Cash Management System (NexSys). Budget items must align with allowable cost items identified in this policy and their respective function code (FC). Budget descriptions should adhere to the guidelines in the Adult Education Budget Development Job Aid.

Adult education funds are restricted to allowable adult education instructional programs and allowable training activities. If an activity or cost is for purposes other than adult education or for ineligible individuals, these costs must be prorated accordingly. Fiscal agents and adult education providers must have on file appropriate documentation to support expenditures.

Community partnerships should be leveraged to the extent possible prior to utilizing state and/or federal adult education funds for allowable supportive services. Child and dependent care and transportation costs may be allocable if they are incurred to implement the state and/or federally funded adult education program or allowable training activity and are necessary to enable an adult learner who needs assistance with these costs to participate. Costs must be allocated according to the relative benefits received by the adult education program. For example, if an adult education class is two hours long, the adult education program may pay childcare costs for two hours plus the time needed by the participant to travel to and from the site where the childcare is being provided.

Allowable Cost Policy

Effective July 1, 2024

Tracking logs must be maintained for the following budget items purchased with adult education funding:

- Child and dependent care – Include the date of service and adult education participant name.
 - Child and dependent care services must be delivered in compliance with state licensing requirements. If parents or legal guardians are not immediately available to the child/dependent (i.e., in the same building as the care services), the care services must be provided by a state licensed provider.
- Participant Transportation Services – Include the date of service, participant name, method of transportation, purpose, and cost.
 - These services are allowable only to remove transportation barriers for participants to travel to/from a state and/or federally funded adult education program or the location of an associated activity (e.g., educational visit, job fair, postsecondary institution, and Michigan Works! Agency). They may not be used for purposes of marketing or incentives.
- Tangible Personal Property - Include the item name, date of receipt, serial number (or other identification number), cost, funding source, location, and disposition. Include participant name and date if items are loaned to participants for distance learning.
 - All items remain the property of the district or region, as applicable, to be used for adult education purposes.

WIOA Title II funds may only be used to support academic student assessment for the administration of assessments approved by both the National Reporting System (NRS) and LEO-WD. For the purposes of this policy, academic student assessments refer to those used to measure the educational functioning level of participants for proper placement and to determine educational gains. Refer to the Adult Education Assessment Policy for a list of allowable academic assessments.

LEO-WD requires additional information for approval in advance of the following expenditures, which are evaluated on a case-by-case basis:

- A building or site improvement or capital outlay purchase of \$5,000 or greater.
 - Building or site improvement costs are unallowable under WIOA Title II.
 - The building or site must be owned by the school district to which the Section 107 funding is awarded, and the district must provide reasonable assurance that the adult education program will remain at that site for the foreseeable future to benefit from the improvement.

Allowable Cost Policy

Effective July 1, 2024

- The fiscal agent or adult education provider is required to submit to LEO-WD the relevant details listed in the Budget Development Job Aid to obtain approval.
- Out-of-state travel for a fiscal agent or provider to use adult education funds to participate in an adult education related professional development event.
 - Costs must be reasonable, and participation must be necessary for the federal and/or state award.
 - A completed Adult Education Out-of-State Travel Form must be uploaded to the respective application in NexSys.
- Equipment, which is defined as tangible, non-expendable personal property having a useful life of more than one year and a per unit acquisition cost of \$5,000 or greater.
 - Such equipment shall be retained by the grantee unless otherwise specified at the time of approval.
 - Equipment is not an allowable expense under Section 107(14) for Secondary Vocational education (i.e., FC 133).

Fiscal agents and adult education providers are required to submit application amendments in NexSys for any new activity or any change in a line item that exceeds 10 percent of the original approved amount. Amendments must be approved before dollars can be expended for new projects or activities. A detailed justification must be provided in NexSys for the requested amendment. Grantees should request approval at least 30 days prior to the effective date of the request.

For Section 107, new budget costs for purchases of additional technology, furniture, equipment, and building/site renovations will not be considered during the April amendment of the final quarter of the grant cycle.

For WIOA Title II, new budget costs for purchases of additional technology, furniture, and equipment will not be considered in the final quarter of the grant cycle.

Reduction of WIOA, Title II Allocation

For WIOA Title II recipients that also receive Section 107 deferred funding from a prior year, LEO-WD reserves the right to reduce or withhold the WIOA Title II funding pursuant to Section 241(a) of WIOA. **The WIOA Title II funds must supplement and not supplant other state or local funds expended for adult education and literacy activities.**
