## Summary of Self-Insurers' Security Fund

Approval to be a self-insurer is granted pursuant to MCL 418.611 under the authority of the Agency director. The Self-Insurers' Security Fund (Fund) provides workers' compensation benefits to employees of self-insured employers who become insolvent after November 15, 1971. Being approved as a self-insurer is a potentially lower cost option for employers to meet the mandatory workers' compensation requirement under Michigan law. If a private self-insured employer becomes insolvent, payments are made to injured workers from the Fund when three statutory conditions are met, unless other coverage is available:

- The private self-insured employer is insolvent;
- The employee requests payment of benefits from the Funds Administrator or files an Application for Mediation or Hearing with the Workers' Disability Compensation Agency or the Board of Magistrates; and
- The insolvent private self-insured employer is unable to continue payments.

The Fund pays from the date all three conditions are met. No payments for benefits owed before that date are paid by the Fund. Assessments for the Fund are paid by private self-insured employers only.

In accordance with Michigan Administrative Rule 408.43q, the Self-Insurers' Security Fund, when triggered, may utilize financial guarantees posted with the agency to pay claims. At present, the Fund manages 55 separate employer trust funds which are funded from the financial guarantees posted with the agency. The trusts are established when a private self-insured employer is no longer able to meet their obligations under the Act. In addition, both specific and aggregate excess liability insurance policies continue to have responsibility for payments when retention levels have been met, Michigan Administrative Rule 408.43k.

New trust funds established during calendar year 2020:

- Art Van Furniture, Inc. was self-insured from March 20, 1980 through March 31, 2019. A trust fund has been created to pay the existing claims.

It should be noted that public employers are not covered by the Fund. In the event of a bankruptcy, the employee should also file a claim in bankruptcy court for any workers' compensation benefits the Fund cannot pay.

## A Message from the Funds Administrator

***The mission of the Funds Administration is to provide timely determination of carrier and employee rights to benefits or reimbursement and make payments due in a timely and accurate manner.***

This report on the Self-Insurers' Security Fund (Fund) is prepared in accordance with MCL 418.551 and is an outline of the activities of the Fund during the past calendar year.

The Fund receives 100% of its funding through assessments levied against employers who self-insure their workers' compensation risk. Our staff holds to the philosophy that our funding is not our own, and we take our fiduciary responsibility seriously. We endeavor to demonstrate our commitment to this trust by establishing industry-accepted standards and guidelines in our primary operation areas of claims, financial, and vendor management.

On January 1, 2020, the Private Employer Group Self-Insurers' Security Fund (PEGSISF) became active. The PGSISF allows the non-public employer group self-insurers to move outside the umbrella of the Fund and be protected under their own umbrella. The non-public employer group self-insurers are no longer obligated to pay Fund assessments, which will impact the Fund. However, the Fund is no longer obligated for any potential liability.

It is our intent to implement the Workers' Disability Compensation Act in accordance with the statutory language and corresponding case law while upholding our fiduciary responsibilities and trustee policy.

This report is intended to be informative as to the Self-Insurers' Security Fund's operations.

## Bankruptcies

**Note: The following is a brief summary of bankruptcies being handled by the Self-Insurers Security Fund where a claim(s) remained open at the end of the calendar year. The summary also includes comments regarding trusts that have been established for various reasons and where a bankruptcy has not been filed and a claim(s) remain open.**

## Fund Claims Management and Costs (cont.)

Our claims handling methodology includes attendance by claims professionals at a monthly *round-table* claim discussion and evaluation with Office the Attorney General. Staff also attend seminars throughout the year to stay abreast of all claims trends.

Other controls include:

- The thorough investigation of all claims using all appropriate means.
  - Includes outside investigators and database reviews
- The use of wage earning capacity evaluations to ensure proper rate determinations.
- Peer-to-Peer Prescription Reviews to determine efficacy of existing medications.
- Employ third party vendors for single source distribution of prescriptions, implementation of the Michigan Fee Schedule with PPO Discounts, and durable medical equipment.
- Access conditional payment information through the Medicare Secondary Payer Recovery Portal.
  - Performing these functions in house, saves up to \$500/claim from having independent contractors perform this service.
- Employ third party vendors for Medicare Set-Asides and utilize structured settlements when cost-effective.

Our proprietary claims management system includes multiple layers of security. In addition, we employ separation of duties to ensure that **all** payments are proper and reviewed at multiple levels prior to their release.

Independent Auditor's Report on the Financial Statements  
and Other Reporting Required by *Government Auditing Standards*

Ms. Lee Anne Fontaine, Chair  
Board of Trustees for the Funds Administration  
and  
Ms. Susan R. Corbin, Acting Director  
Department of Labor and Economic Opportunity  
300 North Washington Square  
Lansing, Michigan

Dear Ms. Fontaine and Ms. Corbin:

**Report on the Financial Statements**

We have audited the accompanying financial statements of the Self-Insurers' Security Fund, Funds Administration, Workers' Disability Compensation Agency, Department of Labor and Economic Opportunity, as of and for the calendar year ended December 31, 2020 and the related notes to the financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Opinion***

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Self-Insurers' Security Fund as of December 31, 2020 and the changes in its financial position and its cash flows for the calendar year then ended in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matters***

As discussed in Note 1, the financial statements present only the Self-Insurers' Security Fund and do not purport to, and do not, present fairly the financial position or the results of operations of the State of Michigan or its enterprise funds as of and for the calendar year ended December 31, 2020 in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 10, the Self-Insurers' Security Fund's actuary disclosed several disclaimers related to the actuarially estimated liability amounts. Our opinion is not modified with respect to this matter.

#### **Other Matters**

##### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

##### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the Self-Insurers' Security Fund's financial statements. The Schedule of Estimated Liabilities for Claims by Company, Summary of Self-Insurers' Security Fund, Message from the Funds Administrator, Bankruptcy Summaries, and Fund Claim Management and Costs are presented for purposes of additional analysis and are not a required part of the financial statements.

The Schedule of Estimated Liabilities for Claims by Company is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Estimated Liabilities for Claims by Company is fairly stated, in all material respects, in relation to the financial statements as a whole.

The Summary of Self-Insurers' Security Fund, Message from the Funds Administrator, Bankruptcy Summaries, and Fund Claim Management and Costs have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of the Self-Insurers' Security Fund's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Self-Insurers' Security Fund's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fund's internal control over financial reporting and compliance.

Sincerely,

A handwritten signature in cursive script that reads 'Laura J. Hirst'.

Management's Discussion and Analysis  
Year-ended December 31, 2020

Our discussion and analysis of the Self-Insurers' Security Fund (Fund) of the State of Michigan, Department of Labor and Economic Opportunity financial performance provides an overview of the Fund's activities for the calendar year ending December 31, 2020.

The Fund was established by Michigan Compiled Laws Section 418.501 and provides workers' compensation benefits to injured employees of non-public self-insured employers who become insolvent after November 15, 1971. The Fund is funded by assessments of 326 current and former non-public self-insured employers that made indemnity payments during calendar year 2019 and by surety bonds and letters of credit held by the Workers' Disability Compensation Agency. Non-public employers apply for the authority to become self-insured through the Workers' Disability Compensation Agency and must be approved by the Workers' Disability Compensation Agency Director. An individual non-public self-insured employer may be required to furnish a surety bond or letter of credit (security). The Fund is managed by a 3-member Board of Trustees. Two of the members are appointed by the Governor with advice and consent of the Senate and the third member is the Director of the Workers' Disability Compensation Agency.

The accompanying financial statements present the results of the operations for the Self-Insurers' Security Fund only. Accordingly, these financial statements do not present fairly the financial position or results of operations of the State of Michigan or the State of Michigan Department of Labor and Economic Opportunity.

### **Financial Highlights**

Annual assessments are levied against indemnity paid by non-public self-insurers. Assessments are statutorily capped at 3% per calendar year. Revenue from assessments for 2020 was \$1.9 million. The Fund and trusts managed also received reimbursements of \$0.47 million from excess carriers in 2020.

The Fund also administers employer trust funds that are created from the call, by the Workers' Disability Compensation Agency, of security that was required from the employer for the privilege of becoming a self-insured employer.

### **Using this Annual Financial Report**

The annual report includes this management's discussion and analysis, the independent auditor's report, and the financial statements of the Fund. The financial statements also include notes that explain in more detail some of the financial statements, and an actuarially developed supplemental schedule that estimates future contingent liabilities of the Fund. The actuarial valuation is required pursuant to MCL 418.551.

### Reporting on the Fund

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Fund, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

### Financial Analysis of the Fund

The Self-Insurers' Security Fund is reported in the State of Michigan Comprehensive Annual Financial Report as a Special Revenue Fund and in prior years was also presented to its board members as a Special Revenue Fund. In order to comply with MCL 418.551 (10) the Department of Labor and Economic Opportunity (LEO) obtained a waiver from the Office of Financial Management, State Budget Office, to present the financial statements as an Enterprise Fund. The material difference of presentation is that non-current receivables and non-current liabilities were not included in the Special Revenue Fund statements. The presentation of the Fund as an Enterprise Fund, as mentioned, does include the non-current receivables and non-current liabilities.

Rounded numbers in Table 1 may not add to the rounded totals due to calculating based upon full numbers prior to rounding.

Current assets decreased by \$45.8 thousands resulting from a reduction in assessments paid by assessable employers when compared to 2019.

Current liabilities decreased by \$0.3 million due in part to a refund of assessments to Hurley Medical Center.

The long-term liabilities increased by \$0.2 million due to the actuarial increase in the estimate of Indemnity, Medical, and Claims Expenses net of excess reimbursements for 2020. In 2020 the Indemnity, Medical and Claims Expenses included Trust Fund recoveries in the amount of \$1.8 million. Further, the actuaries had an additional year of data available for their comprehensive review of the Fund's claims enabling them to refine their estimate.

The increase in long-term liabilities and the decrease in current liabilities resulted in a slight increase in net position for 2020.

Equity in common cash at the beginning and the end of the year was \$31.8 million and \$31.8 million, respectively. Of the Equity in common cash, the amount held in trust at the beginning and the end of the year were \$10.6 million and \$10.8 million, respectively.

Rounded numbers in Table 2 may not add to the rounded totals due to calculating based upon full numbers prior to rounding.

This report reflects an increase of total operating expenses of \$2.4 million from the prior year report dated December 31, 2019.

The financial statements report a positive net position as of December 31, 2020 of \$21.4 million. The Self-Insurers' Security Fund assesses private self-insured employers annually, up to a maximum of 3%, of the reported losses paid by these employers during the preceding calendar year, exclusive of payments made pursuant to sections 315, 319 and 345 of the Michigan Workers' Disability Compensation Act.

The Actuarially estimated liabilities of claims net of estimated reinsurance and trust fund recoveries is \$10.3 million. The \$10.3 million includes \$3.4 million related to Delphi Corporation claims.

Table 3  
Change in Actuarially Estimated Liabilities  
Net of Estimated Reinsurance and Trust Recoveries  
(in Millions)

	<u>2020</u>	<u>2019</u>	<u>Change</u>
Delphi	\$3.4	\$3.9	(\$0.4)

Other	\$3.0	\$2.2	\$0.8
	<u>\$10.3</u>	<u>\$10.1</u>	<u>\$0.1</u>

The above amounts include estimated reinsurance recoveries of \$0.7 million related to National Steel Corporation and \$12.3 million related to Other Companies and \$1.8 million related to Trust Fund recoveries. There are no estimated reinsurance recoveries for Delphi.

The Actuarially estimated Indemnity and Medical Claim payments for calendar year 2021 through 2025 are as follows.

This illustrated payout pattern is based on lifetime payments assuming an expectation of future payments, mortality and trends. The above amounts have been reduced by anticipated Excess Recoveries.

## Litigation

Litigation regarding the responsibility for Delphi claims was concluded in 2015 with the Self-Insurers' Security Fund accepting responsibility for claims previously in dispute.

## **Note 1 General Activities and Significant Accounting Policies**

### **Reporting Entity**

The Self-Insurers' Security Fund (Fund) of the State of Michigan Department of Labor and Economic Opportunity was established by Michigan Compiled Laws Section 418.501. The Fund provides workers' compensation benefits to injured employees of non-public self-insured employers and is funded by annual assessments of the approved non-public self-insured employers and with surety bonds and letters of credit of insolvent non-public self-insured employers.

### **Basis of Presentation**

The Fund is reported in the State of Michigan Comprehensive Annual Financial Report as a Special Revenue Fund for fiscal year ended September 30, 2020 using the current financial resources measurement focus and the modified accrual basis of accounting. To comply with MCL.418.551 (10), and as approved by waiver by the State Budget Office, Office of Financial Management, the accompanying financial statements present the Fund as an Enterprise Fund. The Basis of Accounting below describes the preparation of the statements. The accompanying financial statements are not intended to present the financial position and results of operations of the State of Michigan or its enterprise funds.

### **Basis of Accounting**

The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this measurement focus, revenues are recognized when they are earned and expenses are recognized when incurred, regardless of the timing of related cash flows.

### **Operating Revenues and Expenses**

Operating revenues and expenses primarily are from the collection of assessments, surety bonds, letters of credit, administrative expense/legal, and the payment of workers' compensation benefits. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

### **Statement of Cash Flows**

For the purposes of the statement of cash flows, the Fund considers equity in the State Treasurer's Common Cash pool, net of warrants outstanding, to be cash equivalents.

## **Use of Estimates**

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

## **Equity in the State Treasurer's Common Cash Fund**

The State Treasurer manages the State's Common Cash pool, which is used by the Fund. The pooling of cash allows the Treasurer to invest monies not needed to pay immediate obligations so that investment earnings on available cash are maximized. Investments of the pool are not segregated by fund; rather, each contributing fund's balance is treated as equity in the pool and presented in this report as "Equity in State Treasurer's Common Cash."

Investment policies and risk categorization are included in the State of Michigan's Comprehensive Annual Financial Report.

## **Compensated Absences**

Employees accumulate annual leave (vacation) balances to maximum amounts ranging from 296 to 356 hours. The maximum accumulation that may be paid off is 40 hours less than the total hours that may be accumulated. Employees receive a 100% termination payment upon separation based upon their final rate of pay. Sick leave accrues for all employees at the rate of four hours for each two-week period worked and accumulates without limit. Up to 50% of accumulated unused sick leave of employees hired prior to October 1, 1980 is paid to employees or their beneficiaries upon death, retirement, or resignation. For employees hired after September 30, 1980, unused sick leave is forfeited upon termination of employment.

The State instituted a banked leave time program in fiscal year 2004 whereby eligible employees work a regular schedule but receive pay for a reduced number of hours. The banked leave time program was utilized in fiscal years 2005, 2006, and 2010. The unpaid hours worked accrue to a banked leave time account. Upon an employee's separation, death, or retirement from State service, unused banked leave time hours shall be contributed by the State to an employee's account within the State's 401K plans, and if applicable, to the State's 457 plans.

## **Note 2 Pension Plans and Postemployment Benefits**

Plan Descriptions – The defined benefit and defined contribution pension plans are part of the State Employees' Retirement System administered by the Department of Technology, Management and Budget, Office of Retirement Services. Participants in each plan are eligible for retirement, healthcare, and disability benefits upon meeting certain vesting requirements. The State Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit plan. That report is available on the State's website at <http://www.michigan.gov/ors>. The financial report for the defined contribution plan may be obtained by writing to the Department of Technology, Management and Budget, Office of Retirement Services, 530 West Allegan St., Lansing, MI, 48933-1524 or by calling (517) 322-5103.

New employees hired on or after March 31, 1997 participate in a defined contribution plan that is separate from the State Employee's Retirement System defined benefit plan. Employees hired before March 31, 1997 are covered by the defined benefits plan unless they chose to convert to the defined contribution plan during 1997.

Funding Policy – For the State Employee's Defined Benefit Retirement Plan, the Fund was billed and paid \$10,225.65 and \$11,050.07 for pension charges and retiree postemployment benefits in calendar years 2019 and 2020, respectively. Effective April 1, 2012, defined benefit plan members are required to contribute 4% of their compensation for pension benefits. For the State Employee's Defined Contribution Retirement Plan, the Fund is required to contribute 4% of the annual payroll and to match employee contributions up to 3% of annual covered payroll. The Fund contributions for the Plan were \$17,626.24 and \$19,496.38 for calendar years 2019 and 2020, respectively.

## **Note 3 Risk Management**

The Fund participates in the State of Michigan's (primary government) risk management program. The State is self-insured for most general liability and property losses; portions of its employee insurance benefit and bonding programs; and automobile liability, workers' compensation, and unemployment claims. The State Sponsored Group Insurance Fund and Risk Management Fund (internal service funds) have been established by the State to account for these self-insured risk management programs. As a participant, the Fund recognized expenses for payments made to the State in a manner similar to purchasing commercial insurance. Charges to finance the self-insured programs are based on estimates of amounts needed to pay prior and current year claims and determined annually by the Department of Technology, Management and Budget.

**Note 4 Accounts Receivable**

The Fund has the same rights as the self-insured employer to request recovery from excess insurers for continuing claim payments in excess of established retention values under either a specific (individual claim) or aggregate (all claims within policy period) excess insurance policy in effect on the claim’s date of injury. Individual and aggregate claim benefit losses and expenses are compared to the retention limits for the policies in effect on the date of injury. After the cumulative losses on an individual claim (specific policy) or for all claims (aggregate policy) exceed the retention limit, Fund’s staff request reimbursement from the excess insurer for continuing benefit and expense obligations on the claim. Accounts receivables from Third Party and Excess Recoveries were \$252,190.61 and \$295,217.73 for year ending December 31, 2019 and December 31, 2020, respectively.

**Note 5 Current Liabilities**

Current Liabilities include adjusted actuarially estimated payments net of excess reinsurance. The actuarially estimated current liability \$1,302,005.00. Accounts payable and other liabilities include CY2020 compensated absences of \$70,017.03.

**Note 6 Long-Term Liabilities**

Long-Term Liabilities include actuarially estimated liabilities net of excess insurance and trust fund recoveries.

			12/31/2020	Amounts Due	Amounts Due
Beginning Balance	Additions	Reductions	Ending Balance	within one year	after one year
\$10,136,292	\$132,218	\$0	\$10,268,510	\$1,302,005	\$8,966,505

**Note 7 Fund Resources**

The Fund assesses private self-insured employers annually, up to a maximum of 3%, of the reported loss paid by these employers during the preceding calendar year, exclusive of payments made pursuant to sections 315, 319 and 345 of the Michigan Workers’ Disability Compensation Act.

**Note 8 Net Position**

The Fund as of December 31, 2020 has an unrestricted net position of \$21.4 million. Future assessments, plus excess recoveries will be used to meet the existing future liabilities of the Fund.

**Note 9 Actuarial Estimates of Liabilities for the Self Insurers’ Security Fund**

Evaluating loss and expense reserves involves the estimation of the outcome of future uncertain events. Considerable variances on the actuary estimates should be expected. It is quite possible the ultimate values will vary substantially from the estimates developed by the actuary.

## **Note 10 Actuary Disclaimer**

The Actuary disclosed the following disclaimer related to the estimations:

“Evaluating loss and expense reserves involves the estimation of the outcome of future uncertain events. As such, they are subject to variation from expected values. Due to the nature and degree of uncertainty involved in projecting reserves, there can be no guarantee that our independent estimates will prove adequate or not excessive. However, the assumptions and methods we have employed in our analysis are, in our opinion, reasonable under the circumstances.”

During 2015 through 2020, the SISF has updated case reserves on all claims and has recorded these case reserves in the FAIS system. Given the nature of the exposure as well as the maturity of the Delphi experience, considerable variance from the estimates presented in this report should be expected. However, this variance has been considerably reduced from that underlying our prior estimates due to the improved case reserving and given that we have some credible experience related to the settlement and verification process related to Delphi Claims Adjudicated since 2014. It is our expectation that the variance will continue to reduce over time due to the improvements in case reserve processes and as additional experience on the Delphi claims becomes available.
