MCOLES conducts business in an environment free from organizational or financial conflicts of interest with independent control over fulfilling its mission.

MCOLES is nationally recognized as a leader in the development of training and ethical standards for law enforcement officers.

Serving the citizens of Michigan through the advancement of law enforcement standards and training since 1965.

The Michigan Commission on Law Enforcement Standards

The Michigan Commission on Law Enforcement Standards is composed of members appointed by the Governor from the ranks of Michigan's law enforcement and criminal justice communities. Constituencies represented in the Commission's appointed membership consist of:

- the Michigan Sheriffs' Association;
- the Police Officers Association of Michigan;
- the Michigan Association of Chiefs of Police;
- the Michigan Fraternal Order of Police;
- the Criminal Defense Attorneys Association of Michigan;
- the Prosecuting Attorneys Association of Michigan;
- the Michigan State Police Troopers Association;
- the Michigan Association of Police;
- the Police Officers Labor Council;
- the Detroit Police Department;
- the Deputy Sheriff's Association of Michigan;
- the Detroit Police Officers Association;
- the Residents of the State of Michigan; and
- the Public

Also represented on an ex-officio basis are the Michigan State Police and the Attorney General of Michigan.

During 2023, Sheriff Gregory Zyburt, representing the Michigan Sheriff's Association, served as the Commission Chair. Director Kimberly Koster, representing Michigan Association Chiefs of Police, served as the Commission Vice-Chair.

The Commission meets no less than four times annually to set policy regarding the selection, employment, training, licensing, and retention of all Michigan law enforcement officers. During 2023, there were five regular meetings of the Commission.

Commission duties extend beyond the law enforcement arena, as Commissioners set policy with regard to the administration of the justice training dollars. These decisions have a direct impact on the distribution of funds in the Commission's competitive grant process, which provides support for in-service training in all facets of Michigan's criminal justice system, as well as the administration of the law enforcement distribution. The Commission also provides claims investigation and eligibility verification for the Public Safety Officer Benefit program which provides a one time payment for the care of a public safety officer permanently and totally disabled in the line of duty or in the event of the officer's death in the line of duty, to the spouse, children, or estate of the officer.

In addition to their formal duties, MCOLES Commissioners invest countless hours on behalf of Michigan's criminal justice community. Substantial time is required of Commissioners to apprise themselves of the various issues they must understand. Commissioners are frequently asked to attend and address academy graduations, testify on behalf of MCOLES on legislative issues, and make other public speaking appearances on behalf of MCOLES. Commissioners are often called upon to represent MCOLES at meetings of the legislature, other government agencies, training directors, and at conferences of professional organizations that have a stake in criminal justice. MCOLES Commissioners must also be available to handle inquiries from their various constituencies concerning MCOLES services and policies.

MCOLES HIGHLIGHTS

FY 2023

Continuing Professional Education (CPE) Funding

On January 31, 2023, Public Act 1 of 2023 (hereafter PA 1) appropriated funds to support the implementation of required annual in-service training standards for all licensed law enforcement officers in accordance with rules promulgated under section 11(2) of the MCOLES Act. This section states in part, “The commission may promulgate rules with respect to any of the following: (a) In-service training programs and minimum courses of study and attendance requirements for licensed law enforcement officers.” Prior to January 31, 2023, post academy law enforcement officer training was optional and for practical purposes, individual agencies determined if, and how much, in-service training was required[1]. Consequently, licensed officers received differing levels of training.

By September 1, 2023, the Commission presented a report to the senate and house appropriation committee chairs and the senate and house fiscal agencies regarding:

- the type and amount of required in-service training and any standards adopted by the commission,
- the use of funds appropriated for in-service training, and
- any recommendations to improve licensed law enforcement standards in this state.

PA 1 appropriated funds to support the requirement of licensed law enforcement officers to complete annual in-service training (hereafter referred to as continuing professional education, or CPE). As of this date, the CPE requirement affects approximately 18,600 licensed officers presently employed by approximately 575 Michigan law enforcement agencies. Appropriated funds are to increase Commission staff by adding 7.0 full-time equated positions to support development and implementation of the CPE and establish and implement annual CPE requirements of in-service law enforcement officers.

Public Safety Academy Assistance

Public Act 166 of 2022 appropriated \$30,000,000 for grants to local law enforcement agencies to pay expenses for the hiring of employed recruits. Grants are for up to \$24,000 per recruit, and may be used for salary and wages, basic law enforcement training academy tuition and fees, and other expenditures related to the recruit’s attendance at the academy.

As of December 31, 2023, 202 law enforcement agencies took advantage of the grants to send 703 recruits to basic training. The total grants received by agencies for this period was \$14,671,922.75.

MCOLES ECONOMIC SUPPORT: THE MICHIGAN JUSTICE TRAINING FUND

MCOLES is responsible for the administration of the Michigan Justice Training Fund, which was created under Public Act 302 of 1982, as amended. The fund provides financial support for in-service training of criminal justice personnel.

The Michigan Justice Training Fund is supported through a percentage of the Michigan Justice System Fund. Justice System Fund revenue comes from various assessments related to court penalties. When a person is found guilty of a civil infraction, misdemeanor, or felony, the individual is required to pay a series of fines that are transmitted to the Justice System Fund. Of these fines, the first \$10 is deposited in the Secondary Road Patrol and Training fund, of which MCOLES receives 5.65% for Training to Locals reimbursements. Following that, of the remaining Justice System Fund revenue MCOLES receives 11.84% deposited into the Michigan Justice Training Fund.

The Commission is mandated by the Act to distribute 60 percent of the fund revenue semi-annually in what has come to be known as the law enforcement distribution (LED). These monies are provided to law enforcement agencies to provide for direct costs in support of in-service training for licensed law enforcement officers. Distributions are made on a per-full time equivalent (FTE) basis to eligible agencies determined by total hours worked by officers in the prior calendar year.

For fiscal year 2023, the Michigan Justice System Fund allocation was revised. Previously, the first \$10.00 of court fines for infractions was dedicated to the Secondary Road Patrol and Training Fund, with MCOLES receiving 11.84% of the remainder for the Michigan Justice Training Fund. The Secondary Road Patrol and Training Fund revenue was reappropriated to the Liquor Control Commission, and the Michigan Justice Training Fund now receives the first \$10.00 of each fine plus the 11.84% of the remainder.

During 2023 a total of \$5,865,119.91 was disbursed to 470 law enforcement agencies. The spring distribution provided agencies with \$2,696,418.23, with a per-FTE amount of \$162.06. Twenty agencies having fewer than 2 FTEs received the minimum distribution of \$250. The fall distribution provided agencies with \$3,168,701.68. The per-FTE amount was \$189.96. Due to the revised allocation above, the per-FTE amounts represent record highs.

The remaining 40% of the Michigan Justice Training Fund revenue may be used to support MCOLES administrative expenses. Following that, remaining revenue may be used for a competitive grant program for criminal justice personnel, including non-MCOLES licensed individuals. For calendar year 2023, nine competitive grants were awarded totaling \$1,179,791.78.

The total Michigan Justice Training Fund revenue for 2023 was \$9,767,710.44. This is an increase from \$3,262,515.24 in 2022, a 199% increase. For additional fund revenue trends see the related pages in the Appendix.

MCOLES ECONOMIC SUPPORT: TRAINING TO LOCALS FUND

In 2023 the MCOLES Training to Locals (TTL) program funding was moved from the Michigan Justice System fund to a Liquor Control Commission appropriation for Secondary Road Patrol and Training. MCOLES receives 5.65% of that appropriation.

TTL funds are used “to reimburse law enforcement agencies for the reasonable costs the agencies incur in providing education to their employed recruits who are enrolled in basic law enforcement training academies for the purpose of being licensed by the agencies as law enforcement officers licensed under this act.” (MCL 28.614)

This generally represents partial payment of an academy’s tuition costs. Prior to 2018, TTL funds had also been used to support administrative expenses for associated statutory functions. Expenditures that qualify for reimbursement and those that are not eligible for reimbursement are as follows:

Eligible

- Academy tuition
- College/academy fees
- Licensing exam fees

Ineligible

- Recruit wages/benefits
- Recruit uniforms and equipment
- Travel (lodging/mileage/meals)
- Pre-employment testing fees
- Standards screening costs

An appropriation for Public Safety Academy Assistance grants to law enforcement agencies for expenses related to sending employed recruits to basic law enforcement training became available for the Fall 2023 academy sessions. Many of those recruits who would otherwise have been eligible for TTL funds received funding from the academy assistance grants instead, increasing the per-recruit amount available through TTL.

The 2023 TTL reimbursements resulted in a \$2,678.41 per recruit to 64 agencies for 342 recruits totaling \$334,981.43.

MCOLES ECONOMIC SUPPORT: THE MEDICAL MARIJUANA REGULATORY FUND

With the legalization of medical marijuana, the Medical Marijuana Facilities Licensing Act, PA 281 of 2016, provided for a regulatory assessment imposed on licensed growers, processors, provisioning centers, and secure transporters. In the resulting compiled laws, MCOLES was specifically designated to receive a portion of this revenue as “(h) An amount sufficient to provide for the administrative costs of the Michigan commission on law enforcement standards.” (MCL 333.27603(1)).

For fiscal year 2023, MCOLES received an appropriation of \$3,280,700.00. Being a revenue fund, the appropriation was an upper bound subject to actual collections. The total allocated to MCOLES was \$2,495,491.42.

MCOLES Appropriation = \$3,280,700

LAW ENFORCEMENT AGENCY ANNUAL REPORTING

Each year, Michigan law enforcement agencies are required by statute to complete a mandatory reporting to MCOLES. With a registration window open from January to March agencies complete the following activities from the previous calendar year:

- Confirm their agency roster for missing employment transactions;
- Confirm their agency contact information on file with MCOLES;
- Indicate compliance with the MCOLES mandatory active-duty firearms standard;
- Report the number of hours worked by licensed law enforcement officers;
- Report their Law Enforcement Distribution (LED) expenditures for eligible training courses; and
- Register for the following year's LED allocations.

Reporting is completed through the MCOLES Information and Tracking Network (MITN), the web-based application used for most agency transactions.

The Commission established the annual requirement to complete the mandatory active-duty firearms standard in 2009, with compliance beginning with calendar year 2010. Compliance with this standard is reported through the annual registration. An in-service training course module in MITN may also be used to generate a list of individuals who have yet to complete the standard.

The number of hours worked by officers serves three purposes. First, an individual's license status is contingent on current employment as a law enforcement officer. Second, should an officer not be currently employed as a licensed law enforcement officer, their eligibility to be re-hired or required to complete the Recognition of Prior Training and Experience (RPTE) program is based on cumulative hours worked. Finally, the total hours worked by an agency's licensed law enforcement officers is used to determine the amount of law enforcement distribution for the following year.

Reporting of Law Enforcement Distribution expenditures is required in accordance with the Michigan Justice Training Fund (MJTF) statute and administrative rules. It is also to determine eligibility for continued funding and identifying unexpended funds to be reclaimed into the MJTF.

Most of the reporting requirements may be completed or maintained throughout the course of the year so that Annual Registration is not an excessive burden during the reporting period. Agencies not completing the registration or having issues on their report are contacted by MCOLES staff to assist them through the reporting process and to clarify questioned items.

PRE-ENROLLMENT TESTING

All candidates entering law enforcement in Michigan must demonstrate proficiency on both the physical fitness and the reading and writing examinations. Previously licensed officers are not required to take these tests when applying for re-licensure through the Recognition of Prior Basic Training and Education (RPTE) program.

Reading and Writing Exams

The MCOLES reading and writing test is designed to measure candidates' writing skills and reading comprehension. This test is administered in computer labs at approved basic law enforcement training sites across the state. Passing test scores for the reading and writing test remain valid without expiration. A letter grade accompanies the passing score. The highest scoring band is identified with the letter "A," the middle band with the letter "B," and the lowest scoring band among those passing the test with the letter "C." This letter grade identifies the candidates' position in comparison to other test participants who passed the examination.

Physical Fitness Exam

The physical fitness test is designed to assess strength and aerobic capacity to ensure that candidates possess a minimum level of fitness necessary for success in training. The physical fitness test is the result of a three-year research effort, which was done in consultation with the Cooper Institute of Dallas, Texas.

Pre-enrollment physical fitness testing ensures candidates possess sufficient conditioning to undergo the challenges of the fitness-training program. Successful completion of a basic police academy includes passing the final physical fitness assessment. Academy recruits submit to physical fitness testing just prior to graduating from basic training and must achieve a proper level of improvement to meet or exceed the standard.

The test events are the same for pre-enrollment testing as they are for the final physical fitness assessment in the academy. The events are not equipment-dependent, and candidates can self-assess and recruiters can pre-test candidates early to assess their viability. The test events are:

- Maximum number of push-ups within sixty-seconds;
- Maximum number of sit-ups within sixty-seconds;
- Maximum height vertical jump; and
- Timed 1/2-mile shuttle run.

Push-ups are used to assess upper body strength, sit-ups reflect core body strength, and the vertical jump is a reliable indicator of lower body strength. Aerobic/anaerobic capacity is measured in the shuttle run. Trainers providing instruction in the MCOLES Health and Wellness Program have successfully completed an MCOLES “Train the Trainer” preparation course.

The pre-enrollment physical fitness test must be taken within 180 days of entering academy training.

Applicants and agency administrators should be aware MCOLES pre-enrollment tests are administered only at MCOLES approved test centers. A testing schedule is available on-line at the MCOLES website. Other forms of testing or testing at non-approved sites will not satisfy these mandatory requirements.

EMPLOYMENT STANDARDS

Standards help ensure the minimum competencies of law enforcement officers. To be sure, standards development cannot be done from an armchair. It requires work, expense, and the involvement of experts and practitioners. Standards must reflect the needs of today’s policing and anticipate the needs of tomorrow. Most standards also require follow-up maintenance to ensure validity and viability. The standards are continuously reviewed and modified to keep pace with changes in the law, research, and professional best practices. Yet the outcome of the standards-based approach is undeniable. Standards provide answers that make a difference, and the process of building standards cultivates trust.

MCOLES sets standards for Michigan’s law enforcement officers. Law enforcement duties cannot be performed effectively by every person who decides to take up the profession. All standards are derived from and confirmed by a regularly updated job-task analysis of the basic patrol officer functions. A law enforcement officer must possess physical and mental capabilities, as well as being able to meet ethical, psychological, and training standards. A summation of the standards that must be met by persons entering the law enforcement profession in Michigan are listed below.

The MCOLES “Meet and Maintain Standard” requires pre-service law enforcement candidates to meet most law enforcement employment standards prior to entering training and during the training session. This restriction protects candidates who have problems that are not correctable from expending their time and financial resources in law enforcement training only to find out later that it is impossible for them to enter the profession. Once training has been successfully completed, candidates must meet and maintain compliance with all selection and employment standards in order to secure law enforcement employment.

For a complete list of the Employment Standards see related pages in the appendix.

Basic Training Standards and Curriculum

The foundation of law enforcement training in Michigan is the basic training curriculum. MCOLES expends significant resources to build and maintain this curriculum, provide updates, and develop new subject matter based on research, best practices, and statutory mandates.

MCOLES uses a structured five-phase instructional design method for education and training curriculum. This process is purposefully designed to elicit behavioral change. Content and construct validity are important factors and the process helps ensure that behavioral outcomes are consistent with community expectations, and relative to job tasks.

MCOLES curriculum is in the form of an outline stating the behavioral objectives required of every law enforcement officer in Michigan. These outcomes are based on a thorough job-task analysis and foundational research. The curriculum outline is the structure upon which police academies and instructors throughout the state develop lesson plans. The academy specific lesson plans are reviewed and approved by regional college and university police academy advisory boards. Advisory boards commonly consist of cross-disciplinary practitioners and community members that provide guidance for educational aspects of the training program and give academy training directors insight on current issues and needs within the local community.

Analysis

The instructional design process is a structured five phase cycle of analysis, design, develop, implement and evaluate (ADDIE). Each phase provides outcomes to be used in subsequent steps. For example, the analysis phase identifies the target audience, establishes the behavioral outcome, and lists any restraints or impediments to training delivery.

The design phase is a logical, specific process of creating training based on analysis outcomes. Learning objectives, assessment measures and content are designed to leverage various learning strategies (cognitive, affective, etc.). The design phase incorporates several of these learning strategies, and delivery methods, to ensure a successful transfer of knowledge from the instructor to the student. In addition, subject matter expert groups are utilized to provide essential job knowledge, validate the content, and add relevancy to the project.

Design

Develop

During the development phase the training course is sequenced and assembled. Course material is refined, and learning methods are strategically added for intentional redundancy. This redundancy provides individual students with the opportunity to learn by several means. The development phase also includes review and revisions based on documented feedback.

Implementation

During the implementation phase instructor/facilitator training procedures are established covering learning outcomes, training delivery methods, and testing requirements. Pilot programs are conducted to gather feedback and revisions are made before continuing to final product delivery.

Evaluation

As formative evaluation takes place throughout the ADDIE process, this phase addresses summative evaluation. Summative evaluation seeks to measure training effectiveness first, by capturing student reaction to the training environment, course materials, and instructor preparation. Second, by measuring participant learning to the extent of improved knowledge and skills. Next, by evaluating the level of individual behavioral change. Lastly, measuring the amount of organizational change that has taken place as a result of the training.

Once completed, projects never end, they need constant review and ongoing maintenance by MCOLES. Changes and updates are caused by case law decisions, ever-evolving best practices, newly published research findings, and new information gathered from incidents involving law enforcement. Projects must reflect these realities and modifications are often necessary.

Due to the structured and technical manner in which training curriculum must be developed for it to be valid and defensible, it is counterproductive to legislate specific instructional components.

The MCOLES statute was specifically enacted in 1965 with consistent amendments since its initial passage, to provide MCOLES with the necessary authority to mandate selection and training standards and enforce compliance with these mandates through the administrative rules promulgation process. MCOLES has consistently fulfilled these statutory mandates to develop and implement defensible standards and to promulgate rules governing the enforcement of these mandates.

MANDATED BASIC LAW ENFORCEMENT TRAINING

The Commission's mandatory basic law enforcement training curriculum is delivered through approved training delivery sites governed by administrative rules and Commission policies. Qualified graduates who have successfully completed the basic academy training and passed the MCOLES licensing exam are eligible for law enforcement licensing by MCOLES only at the request of a law enforcement agency that has employed and screened an individual for compliance with all the selection and employment standards and subsequently has empowered the individual by administering an oath of office. All Commission approved basic training delivery sites deliver the same mandated curriculum to all recruits, whether they are employed recruits or eligible pre-service recruits who meet a college degree requirement upon completion of the mandatory basic training.

Agency Basic Training Programs

To enhance recruitment, some bona fide law enforcement agencies screen and hire recruits prior to training and empower them upon successful completion of the training. Employed recruits are compensated by their employer for all the time they attend training. Upon successful completion of both the academy and the MCOLES licensing examination, the recruit is eligible to become a fully licensed officer with the employing agency. Employed recruits are eligible for initial licensure only through the original employing law enforcement agency. Recently, about 50% percent of Michigan's police officers enter the law enforcement profession through this avenue.

There are three training delivery sites in Michigan that train only their own employed recruits. They are the Michigan State Police (MSP) Academy, the Michigan Department of Natural Resources Law Enforcement Division (DNR) Academy, and the Detroit Metropolitan Police Academy (DMPA).

Regional Basic Training Programs

Washtenaw Community College

In 1965, the legislature recognized the need to provide training to employed recruits and eligible preservice candidates for agencies that did not have the means to administer a training program. Therefore, training delivery sites were identified based on regional need across the state.

Law enforcement agencies may also employ applicants who have already completed basic training at their own expense. A candidate intending to become employed with such an agency in this way makes direct application to a Pre-Service Training Academy. Pre-Service candidates must pay for all costs associated with their training. Pre-Service candidates are not compensated by a law enforcement agency for their attendance at training, nor is law enforcement employment guaranteed upon graduation.

To enter a Pre-Service Training Program, the candidate must have an associate or bachelor's degree or be eligible to receive the degree at the completion of training.

Upon successful completion of the Pre-Service Training Program and passing the MCOLES licensing examination, the candidate may apply for employment with any Michigan law enforcement agency. Pre-Service Training Program graduates are eligible to be screened for standards compliance, employment and licensure with a law enforcement agency as a fully empowered law enforcement officer for one year after graduation from a basic training academy.

Grand Valley State University

These approved regional basic training programs train both employed recruits and eligible pre-service candidates and typically run one or two sessions in a training year, unless hiring needs

Pre-Service College Track Basic Training Program

The pre-service college track basic training programs offer mandatory basic police training in conjunction with a college degree program. Students entering these programs are guided through a college-designed curriculum, which allows a qualified graduate to be eligible for licensure as a law enforcement officer upon achieving law enforcement employment. The academic content of these programs includes designated courses that incorporate the entire MCOLES mandatory curriculum. Students must achieve satisfactory grades in each pre-service program course within a one-year time limit and be awarded an associate degree or higher. Presently, there are six locations that offer pre-service college programs.

Track program candidates are not employed by a law enforcement agency at the time of their training and therefore must pay all costs associated with their training. Upon successful completion of the mandated training and passing the MCOLES licensing examination the candidate may apply for employment with any Michigan law enforcement agency.

Of the twenty MCOLES approved training academies statewide, five locations offer a pre-service college track program with three offering associate degrees (Kellogg Community College, Grand Rapids Community College and Northwestern Michigan College) and two offering bachelor's degrees (Ferris State University and Lake Superior State University). Program graduates who successfully pass the MCOLES licensing exam are eligible to be screened for standards compliance, employment and licensure with a law enforcement agency as a fully empowered law enforcement officer for one year following graduation.

Military Police Basic Training Program

Qualified veterans must have satisfactorily completed military police training at a federal service school, have performed as a military police officer for a minimum of 2080 hours in the military police occupational specialty, possess an honorable discharge, and have discontinued employment in the Military Occupational Specialty (MOS) no more than five years prior to the start of the program.

MCOLES believed an abbreviated basic academy could help military police veterans transition into civilian policing more quickly. A shortened curriculum of 280 hours, which takes into account previous policing experience and training, helps shorten the overall time from training to employment.

RECOGNITION OF PRIOR TRAINING AND EXPERIENCE PROGRAM

The recognition of prior training and experience program (RPTE) is designed to facilitate the re-entry of persons into law enforcement who were previously licensed in Michigan and who have been separated from law enforcement employment longer than the time frames specified in Section 9 of Public Act 203 of 1965. Individuals who are licensed law enforcement officers in states other than Michigan may also utilize the RPTE program to gain Michigan law enforcement licensure status, provided they have successfully completed a basic police training academy program and functioned for a minimum of 2,080 hours as a licensed law enforcement officer in their respective state. In addition, pre-service graduates of Michigan's mandatory basic police training program may also access the RPTE program to gain an additional year of eligibility for licensure, providing they have met all of the MCOLES requirements for the first year of eligibility as prescribed by administrative rule.

Approved applicants for the RPTE program have the option of attending a week long program to assist them in preparing for the examinations, or they may elect to take the examinations without the assistance of this program. However, a pre-service candidate who has not become employed in their first year is required to attend the full ¹program. The preparatory programs and examinations are scheduled for an entire calendar year with training opportunities presented approximately every five weeks and testing opportunities provided monthly. All approved RPTE applicants must pass the MCOLES licensing examination

and complete the firearms proficiency examination, which consists of qualification with a handgun, a shotgun, and patrol rifle. In addition, applicants must meet the existing first-aid requirements in order to earn licensure status.

After completing all examinations and first-aid requirements, applicants are eligible for licensure for a period of one year from the examination date. Upon employment with a Michigan law enforcement agency and verification the applicant meets all MCOLES minimum selection and employment standards, law enforcement licensure is awarded. Application to the RPTE program must be made through MCOLES.

THE LAW ENFORCEMENT LICENSING EXAMINATION

Every candidate for Michigan law enforcement must pass the MCOLES licensing examination. The examination is designed to measure minimum competency to enter the profession as a law enforcement officer. This is a comprehensive written examination wherein the examinees are presented with various situational questions to which they must identify the correct response. The test is behavioral in nature in that the respondents must identify the law enforcement behavior that is appropriate for the situation they are presented.

The examination consists of multiple-choice questions, each accompanied by three plausible alternatives. The test questions are blueprinted to the 594-hour curriculum. This means that test questions are matched to the individual training objectives that appear in the curriculum. The validity of this examination is maintained by MCOLES testing experts. Through a pre-testing process, statistical analyses of all questions are performed to ensure that the test items are fair and unbiased.

Recruits who fail the initial administration of this examination are given a second chance to pass the test. Those who fail the second and final administration of the examination are required to repeat an entire basic law enforcement training academy in order to continue pursuit of a Michigan law enforcement career. At the successful completion of the repeated basic training academy session, the individual will have another chance to pass the MCOLES licensing exam.

Although all recruits must pass the MCOLES licensing exam to become licensed, this is not the sole determinant of skills mastery. One test cannot fully evaluate recruit competencies. Accordingly, MCOLES requires that all academies administer periodic written examinations to their recruits, including a comprehensive legal examination near the completion of the school, in addition to individual skills assessments (firearms, emergency vehicle operations, subject control, first aid, and physical fitness). The recruits are assessed throughout their academy experience in a variety of events in order to measure their suitability for the profession.

LICENSING: THE LAW ENFORCEMENT OFFICER LICENSE

MCOLES standards provide leadership and direction in the selection, training, and licensing of Michigan's law enforcement officers under the authority of the MCOLES Act . In 2023, MCOLES licensed 1,115 new law enforcement officers.

The significance of a law enforcement officer license should not be underestimated. Michigan officers have met high educational, medical, and background standards that distinguish an officer among his or her peers. Successful attainment of MCOLES standards reflects mastery of diverse bodies of knowledge and the development of tactical skills essential to the performance of law enforcement duties. The issuance of a law enforcement license signifies the beginning of a career in the profession of law enforcement.

How a License is Issued

Law enforcement officer licensing occurs in a collaborative effort in which each party fulfills specific responsibilities, helping to ensure only qualified candidates enter the law enforcement profession.

Those steps are:

1. The candidate meets all standards, successfully completes the required training and passes the licensing exam;
2. The employer, a duly authorized law enforcement agency, screens the candidate to all required standards (including a thorough background investigation to determine character fitness), employees him or her and
3. Gives the candidate an oath of office which authorizes them to enforce the general criminal statutes of the State of Michigan.

The Commission's selection, training, and licensing standards are presented in the section of this report entitled, "Employment Standards."

Basic recruit training must be completed at an MCOLES approved training academy. There are 20 academies statewide, strategically situated in geographic locations to best serve Michigan's population base. MCOLES mandates a curriculum that consists of 594 hours, although every academy provides training that exceeds this requirement.

There are three program options available to law enforcement training candidates. Each is designed to meet different circumstances that may lead the successful candidate to law enforcement employment and licensure. See the article titled "Mandated Basic Law Enforcement Training."

The MCOLES Act also provides for the licensing of individuals who are appointed or elected to the office of sheriff who were not previously licensed, Michigan tribal officers, fire arson investigators and private college security officers. Each of these groups are subject to special licensing provisions. MCOLES also administers the commissioning of individual railroad law enforcement officers under the Railroad

LICENSING OF RAILROAD POLICE OFFICERS

Commissioning and other requirements of railroad police officers in Michigan can be found in the Railroad Code of 1993 (P.A. 354 1993). Railroad police officers must meet the training and employment standards of law enforcement officers in accordance with Public Act 203 of 1965, as amended, the enabling legislation for MCOLES. Railroad police officers are employees of companies that own, lease, use, or operate any railroad in this state.

In addition to meeting the MCOLES standards, the law requires that the state police (responsibility assigned to MCOLES) must determine the individual is suitable and qualified in order to issue a commission.

Every commissioned railroad police officer has statewide authority to enforce the laws of the state and the ordinances of local communities when engaged in the discharge of his or her duties as a railroad police officer for their employing company. Their authority is directly linked to the company's property, its cargo, employees, and passengers. Railroad police officers carry their authority beyond the company's property when enforcing or investigating violation of the law related to their railroad.

LICENSING OF PRIVATE SECURITY POLICE OFFICERS

Licensed under the Private Security Business and Security Alarm Act, Public Act 330 of 1968, private security police officers, employed by licensed agencies, have full arrest authority while in uniform, on duty, and on the property of their employer. Public Act 330 requires private security licensees to be at least 25 years of age. In addition, private security officers cannot be convicted of a felony or certain misdemeanors within five years.

Under Public Act 330, private security police (PSP) officers must obtain 100 to 120 hours of initial training, with the higher number of training hours required for PSP officers who intend to carry a firearm. All PSP officers are also required to attend twenty hours of in-maintenance (in-service) training annually. Among the topics for which private security police officers must receive training are relevant legal issues and the law, firearms (if applicable), subject control, critical incident topics (e.g., First Aid/CPR, non-violent crisis intervention, emergency preparedness) and topics related to patrol operations (e.g., report writing, investigations, radio communications).

Private security police are not MCOLES licensed law enforcement officers.

PERSONNEL TRACKING

On July 3, 1998, Governor Engler signed into law Public Act 237 which amended Public Act 203 of 1965. Among the changes this legislation brought was the requirement for police agencies to report to MCOLES the employment or separation from employment of law enforcement officers.

These provisions were included to ensure persons who practice law enforcement in Michigan meet the minimum selection, training, licensing, and employment standards prescribed by MCOLES.

An essential underpinning of law enforcement licensure in Michigan, as well as in most other states, is valid law enforcement employment. MCOLES and its predecessor, the Michigan Law Enforcement Officers Training Council, lacked an effective mechanism to track law enforcement officer employment prior to 1998. The reporting requirement of Public Act 237 provided the remedy.

Muskegon County Sheriff's Deputies

In 1999, MCOLES initiated personnel tracking by conducting a baseline registration to identify all of the currently practicing law enforcement officers in Michigan. Today, personnel tracking information is updated continuously through law enforcement agency reporting of new hires and separations from employment and through the MCOLES annual registration for the law enforcement distribution. There were 3,372 personnel transactions in 2023.

The annual profile of Michigan law enforcement continues to demonstrate a fluctuating population of officers, as well as slight fluctuations in the number of functioning law enforcement agencies in this state. Separations from employment by way of resignation or dismissal have continued at rates not dissimilar to the past. Likewise, the formation and/or disbanding of law enforcement agencies is occurring at a pace consistent with other years.

During 2023, 576 law enforcement agencies operated in Michigan, employing 18,585 licensed officers. The largest law enforcement employer, the Detroit Police Department, employed 2,377 licensed officers, the Michigan State Police employed 1,948 licensed officers, while 243 agencies employed ten or fewer licensed officers.

The information provided in the MCOLES personnel registration process serves law enforcement well. It provides law enforcement employers with verified histories of law enforcement employment in Michigan. Second, this process streamlines the registration system for the law enforcement distribution. Finally, it enables various assessments of Michigan's law enforcement population to determine demographic trends and to predict future training needs.

REVOCAION OF THE LAW ENFORCEMENT LICENSE

Criminal or unethical behavior by police officers cannot be ignored. Most ethical breaches require official action. Law enforcement employers handle many of these cases; however, some violations warrant removal of an individual's ability to remain in the law enforcement profession. The most effective way to accomplish this is revocation of law enforcement licensure.

As a result of Public Act 237 of 1998, MCOLES is responsible for revocation of the law enforcement license when the holder has been convicted of a felony, whether by verdict of a judge or jury, plea of guilty, or plea of no contest. Felonies, as defined in the Act, include those crimes expressly designated by statute as felonies and crimes that are punishable by a term of imprisonment that is greater than one year. Additionally, revocation is required when a person is found to have committed misrepresentation or fraud in gaining law enforcement licensure.

MCOLES does not take revocation action on ethics complaints that fall outside the statutory guidelines. These cases remain the responsibility of local authorities. Each case that falls within MCOLES' scope of authority is investigated thoroughly, and the accused officers are afforded full due process, specified under the Administrative Procedures Act of 1969.

MCOLES investigates any standards compliance matter that impacts the ability of individual(s) to obtain or maintain law enforcement licensure. Many revocation matters are revealed during the course of routine MCOLES standards compliance investigations. The issues in these investigations may include arrest and conviction for a criminal offense, use of fraudulent means to obtain law enforcement licensure, allegations of poor moral character, positive drug screens, mental and emotional instability, problems with visual acuity or color vision, and disease or other medical problems

that compromise a person's ability to perform law enforcement duties.

During 2023, five law enforcement officer licenses were revoked due to felony convictions or relinquished as part of a plea agreement.”

In 2008, the Commission authorized the utilization of a form affidavit for use by local prosecuting attorneys in allowing a licensed law enforcement officer who had been criminally charged to voluntarily relinquish their law enforcement license as a condition of plea agreements. Generally, plea agreements are not coordinated with MCOLES license revocation efforts, but the Commission felt it necessary to structure such an agreement in a way that would not hinder the Commission's separate authority to revoke a license. The affidavit and agreement provides the officer's sworn statement that he or she voluntarily relinquishes their license for specific reasons. Typically, the process comes as a part of the plea agreement negotiated between defense counsel and the prosecuting attorney in allowing the officer to plead to a lesser offense having been originally charged with a felony.

MCOLES has made significant progress in securing cooperation for reporting, and with tracking and sharing information regarding individuals who are unsuitable for law enforcement employment. It is significant to note, however, that MCOLES presently does not have authority to suspend or remove law enforcement licensure from individuals who are convicted of committing certain crimes involving behavior clearly in violation of public trust. Examples include felony charges that are reduced in plea agreements without relinquishment, and certain misdemeanors, wherein offensive behavior is evident that is beyond any sensible boundaries for a law enforcement officer.

SERVICES DELIVERED THROUGH PARTNERSHIPS

MCOLES standards reach the field through the collaborative efforts of the Commission and its partners.

Partners include Michigan's law enforcement leadership, training providers, professional organizations representing law enforcement and other components of the criminal justice system, and advocates and members of organizations representing community members. The participation of these groups is critical to the Commission's ability to achieve its goal of increasing

professionalism and fostering public trust.

While working in partnerships is the Commission's strategy, the Commission's goals are developed with a focus on its clients, community members, law enforcement agencies, law enforcement officers, and the other criminal justice professionals who serve community members across the State of Michigan.

Law enforcement alone cannot create safe communities, yet the public correctly expects that its police officers and

Michigan's criminal justice system will be able and willing to protect the public, and to respond effectively when a crime has been committed. It is the Commission's mandate to provide law enforcement officers, and other criminal justice professionals, with the tools that enable them to carry out these difficult and sometimes dangerous tasks successfully and while keeping them safe to continue serving their communities. Ultimately, the Commission cannot succeed unless it works in partnership with all its components and the community.

PUBLIC SAFETY OFFICER BENEFIT ACT: DEATH AND DISABILITY BENEFITS THROUGH PARTNERSHIPS

The Public Safety Officers Benefit Act (PSOB), Public Act 46 of 2004, provides for a one-time payment of \$25,000 for the care of a public safety officer permanently and totally disabled in the line of duty. In the event the public safety officer was killed in the line of duty, the spouse, children, or estate of the officer may be eligible for the one time payment of \$25,000. Benefits paid under the Act are retroactive to incidents resulting in an officer's death or permanent and total disability that occurred on or after October 1, 2003.

Covered Public Safety Officers

"Public safety officer" means an individual serving a public agency in an official capacity, with or without compensation, as a law enforcement officer, firefighter, rescue squad member, or ambulance crew member. Further, "law enforcement officer" means an individual involved in crime and juvenile delinquency control or reduction or the enforcement of the criminal law. It includes police, corrections, probation, parole, bailiffs, or other similar court officers. "Firefighter" means a volunteer or employed member of a fire department of a city, county, township, village, state university, community college, or a member of the Department of Natural Resources employed to fight fires.

Eligibility

The one-time \$25,000 benefit is paid to an eligible beneficiary(ies) in the following order:

If the public safety officer is permanently and totally disabled, the one-time benefit will be paid to the spouse; if there is no spouse, then to the dependents of the officer. If there are no dependents, then the benefit will be paid to the entity providing care to the officer.

If the officer is killed in the line of duty, the benefit will be paid to the spouse. If there is no surviving spouse, then to the dependents of the officer. If there is no surviving spouse or surviving dependents, then the benefit will be paid to the estate of the deceased officer.

A 2016 amendment to the PSOB Act provides a medical benefit plan to a decedent's surviving spouse and dependent children, for as long as 60 months, unless the spouse or children are qualified for and covered by a different source.

Benefits Distributed in 2023

A total of \$175,000 was distributed from fiscal year 2023; funds to survivors for the deaths of 4 law enforcement officers and 3 firefighters.

STOP VIOLENCE AGAINST WOMEN

The federal Office on Violence Against Women administers grant programs nationwide as authorized by the Violence Against Women Act of 1994 (VAWA). These grant programs are designed to improve the nation's ability to reduce domestic violence, dating violence, sexual assault, and stalking by strengthening services to victims and holding offenders accountable for their actions. Under authorization from VAWA, the STOP Violence Against Women Act (STOP) promotes a multidisciplinary community response to crimes against women. STOP is a formula grant program that provides funding to each state. MCOLES receives annual funding to administer training in the law enforcement response to domestic violence and sexual assault, in partnership with the Michigan Domestic and Sexual Violence Prevention and Treatment Board (MDSVPTB). STOP grant funds also provide technical assistance to Michigan law enforcement agencies for the development of domestic violence and sexual assault policies, procedures, and protocols.

Working in conjunction with the MDSVPTB, MCOLES has established training specifications in the law enforcement response to domestic violence and sexual assault for both recruit trainees and active duty law enforcement officers. The domestic violence curriculum contains training objectives in the nature and prevalence of domestic violence, laws regarding domestic violence, stalking, and the response by law enforcement officers. The emphasis is on understanding assaultive behaviors, the nature of victimization, safe response procedures, and professional best practices. The sexual assault curriculum contains objectives on Michigan's Criminal Sexual Conduct Act, investigating sexual assault complaints, and understanding the nature and dynamics of trauma and sexual victimization. The overall goal of both training programs is to emphasize a victim-centered, offender-focused response by law enforcement to domestic violence and sexual victimization.

To maintain credibility and perspective, each training session is delivered by a team of instructors consisting of law enforcement officers, victim advocates and prosecutors. Formal and informal feedback from instructors and participants are documented after each session to ensure the content reflects the realities of contemporary policing. The basic academy training is tailored for recruits who have no real life experiences responding to such calls. The instruction for active duty officers recognizes that an experienced officer's understanding of domestic violence and sexual assault is shaped by street experience, in-service training programs, and continuing education. MCOLES also offers a model domestic violence policy for agency administrators so organizational policies and procedures can reflect best practices across the state. The model domestic violence policy can be downloaded at www.michigan.gov/mcoles.

MCOLES continues its relationship with the MDSVPTB to combat domestic violence and sexual assault statewide. Meeting the needs of victims would be negatively impacted without continuing STOP grant funding. The MCOLES staff continues to provide the necessary administrative and budgetary oversight as the statewide training in both domestic violence and sexual assault continued to be conducted.

IN-SERVICE TRAINING AND BACKGROUND STANDARDS

MCOLES developed six advisory in-service training and employment standards, and one mandatory standard. The topics include:

MCOLES uses a combination of academic research, field surveys, direction from content specialists, information from risk management organizations, and professional best practices from across the country to ensure the standards and guides remain contemporary and valid.

The in-service training standards are intended to enhance the training an officer receives in basic training and reinforce skills such as driving and subject control. In the case of the mandated Active Duty Firearms Standard, each law enforcement agency is responsible for reporting compliance with this standard.

The MCOLES Information and Tracking Network (MITN) is used to register and track in-service training. Course information is registered in advance by agency MITN operators and reviewed by MCOLES staff for compliance with the training specifications. Upon completion of each course, attending officers are entered into the system. The system maintains an officer's training file and provides an accurate and permanent record of completed training.

MCOLES also developed administrator or instructor guides for each respective standard. The goal is to make meaningful and logistically achievable specifications available to all law enforcement agencies across the state. The guides reside on the MCOLES website and can be accessed by agencies. Regional training consortia often use the instructor guides as part of their course offerings.

The in-service training and employment standards were created to assist law enforcement officers in serving the people of Michigan. These standards seek to reinforce officer safety, sound tactics, and assist agency with compliance to state laws. By partnering with professionals and practitioners from diverse backgrounds, the task of creating these in-service training and employment standards has been achieved in a manner applicable to all Michigan law enforcement agencies.

MCOLES INFORMATION & TRACKING NETWORK (MITN)

The MCOLES Information and Tracking Network (MITN) is an Internet-based application used by law enforcement entities to conduct business and personnel transactions with MCOLES in order to comply with the statutes and administrative rules of the Commission.

MITN was created in response to Executive Order 2001-5, which ordered that:

“D. The new Michigan Commission on Law Enforcement Standards, in addition to exercising the statutory authority, powers, duties, functions and responsibilities transferred to it by this order, shall focus its activities in order to accomplish the following objectives involving law enforcement organizations and officers:

...

4. Implement a web-based information system that will allow the Commission to accomplish its goals and communicate with Michigan law enforcement organizations in a more efficient manner...”

Michigan law enforcement organizations include Michigan law enforcement agencies, basic law enforcement training academies, and law enforcement in-service training providers. Each of these groups utilize MITN for different business and personnel transactions.

Michigan Law Enforcement Agencies

The backbone of MITN is for reporting, tracking, and maintaining officers’ personnel transactions. An officer’s career is documented in MITN from the day they apply to a law enforcement agency or training academy, through basic training, standards screening and license activation, employment transactions (hiring and separations from agencies), and continuing in-service training.

In addition, law enforcement agencies also use MITN for the MCOLES Annual Registration and Law Enforcement Distribution (LED) expenditure reporting. These functions determine an agency’s eligibility for the following year’s distributions as well as the full-time equivalents for the distributions.

Michigan Basic Law Enforcement Training Academies

Michigan Basic Law Enforcement Training Academies are responsible for reporting academy session details, maintaining instructors and their qualifications, screening recruit candidates, enrollment of recruits and tracking recruit course and exam scores.

Law Enforcement In-Service Training Providers

Law Enforcement In-Service Training providers play an important role in making sure law enforcement officers' training records are accurate. In-service training providers are responsible for registering the training courses they offer in MITN. Once a training course has concluded the in-service training provider is also responsible for submitting a training roster which includes all law enforcement officers that attended the training. The roster automatically adds the training to the officers' records and also adds the training to their sponsoring law enforcement agencies' LED Expenditure reporting page.

WEBSITE & FACEBOOK PAGES

As our technology-driven environment continues to foster rapid change, individuals and organizations exchange increasing amounts of information. The Internet has multiplied possibilities for the movement of information and communications. The MCOLES website first went online in 1998.

Today, the MCOLES website offers convenient access to MCOLES organizational information, current events, newsletters, annual report and law enforcement job vacancies. It also provides Commission information, such as meeting dates, meeting minutes, Commission resolutions, and relevant statutes and rules.

The website also contains a directory of Michigan law enforcement agencies, approved basic training academies, academy pre-enrollment test dates, a calendar for MITN training sessions, links to websites of interest, and answers to frequently asked questions. The website also serves as the portal to MITN. Visitors to the site will find relevant information dealing with all aspects of MCOLES standards and training, and will be able to find information dealing with the various programs and services which MCOLES administers.

The MCOLES social media page on Facebook continues to grow in popularity with job postings leading users back to the MCOLES website. The address is: www.facebook.com/Michigan.mcoles.

AN ACT to require the creation and maintenance of certain law enforcement officer personnel records; to prescribe the information that may be contained in the personnel records; to permit law enforcement officers to review the personnel records; and to provide for immunity from civil liability to law enforcement agencies in certain circumstances.

The People of the State of Michigan enact:

Sec. 1. This act shall be known and may be cited as the “law enforcement officer separation of service record act”.

Sec. 2. As used in this act:

(a) “Commission” means the Michigan commission on law enforcement standards created in section 3 of the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.603.

(b) “Former employing law enforcement agency” means a law enforcement agency in this state that was the employer of, or that issued an oath of office to, a law enforcement officer licensed under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, and that was required to maintain an employment history record for that law enforcement officer under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615.

Sec. 3. (1) In addition to the employment history record required to be maintained under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, by a law enforcement agency for each officer it employs or for each officer to whom the chief of police of a village, city, or township or county sheriff has administered an oath of office, a law enforcement agency shall maintain a record regarding the reason or reasons for, and circumstances surrounding, a separation of service for each law enforcement officer for whom the law enforcement agency is required to maintain an employment history record under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, who subsequently separates from the law enforcement agency or from his or her employment as a law enforcement officer requiring the administration of an oath of office under section 9c or 9d of the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.609c and 28.609d.

(2) The law enforcement agency shall allow a separating law enforcement officer to review a record prepared under subsection (1) upon the request of the separating officer.

(3) If a separating law enforcement officer disagrees with the accuracy of the contents of the record prepared under subsection (1), he or she may request the correction or removal of the portion of the record he or she believes is incorrect. If the law enforcement agency and the separating law enforcement officer cannot reach an agreement on the contents of the record prepared under subsection (1), the separating law enforcement officer may submit a written statement explaining the separating law enforcement officer’s position and the basis for his or her disagreement. If a separating law enforcement officer submits a written statement under this subsection, it must be kept with the record required under subsection (1) and provided with the rest of the contents of the record as required under section 5.

Sec. 5. (1) A law enforcement officer who is licensed or who was previously licensed or certified under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, and was previously employed as a law enforcement officer in this state, who separates from his or her employing law enforcement agency or from employment as a law enforcement officer to whom an oath of office has been administered under section 9c or 9d of the Michigan commission on law enforcement standards act, MCL 28.609c and 28.609d, and who subsequently seeks to become reemployed as a law enforcement officer in this state, shall provide to the prospective employing law enforcement agency, upon offer of employment, a signed waiver. (2) A waiver under subsection (1) must be executed on a form provided by the commission to all law enforcement agencies in this state that employ or administer oaths of office to law enforcement officers licensed under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615. The prospective employing law enforcement agency is responsible for providing the waiver executed under subsection (1) to the former employing law enforcement agency or agencies.

(3) Upon receipt of the waiver executed under subsection (1), a former employing law enforcement agency shall provide, along with other information required or allowed to be provided by law, a copy of the record required under section 3 to the prospective employing law enforcement agency.

(4) A prospective employing law enforcement agency shall not hire a law enforcement officer to whom subsection (1) applies unless the prospective employing law enforcement agency receives the record created under section 3 from the law enforcement officer’s former employing law enforcement agency or agencies.

(5) A former employing law enforcement agency that discloses information under this section in good faith after receipt of a waiver executed under subsection (1) is immune from civil liability for the disclosure. A former employing law enforcement agency is presumed to be acting in good faith at the time of a disclosure under this section unless a preponderance of the evidence establishes 1 or more of the following:

(a) That the former employing law enforcement agency knew that the information disclosed was false or misleading.

(b) That the former employing law enforcement agency disclosed the information with a reckless disregard for the truth.

(c) That the disclosure was specifically prohibited by a state or federal statute.

Enacting section 1. This act takes effect 90 days after the date it is enacted into law.

This act is ordered to take immediate effect.
