

Protect your Flock!

Protect your flock with these biosecurity tips:

1. No visitors to flock.
2. Wear boot covers or shoes dedicated to a coop. Change shoes, boots, or clothing if they have been worn off the property.
3. Clean and disinfect feed buckets, hoses, and waterers before use.
4. Keep poultry feed/feed ingredients away from wild birds and rodents.
5. Use well water or municipal water as drinking water for birds.
6. Prevent contact with wild birds.
7. Watch flock for signs of illness.
