2025 MICHIGAN COMMERCIAL FEED INSPECTION AND TONNAGE FEE REPORT

Persons that distribute commercial feed in Michigan are required to submit an annual Inspection and Tonnage Fee Report. To avoid late fee charges, this report must be postmarked by **July 31, 2025**. The reporting period is from July 1, 2024, through June 30, 2025.

Be sure to download a new form every year as the form changes each year. An electronic, fillable version as well as a PDF version of this form and a Frequently Asked Questions document are available on our website at www.michigan.gov/mdard-feed. A form completed electronically will calculate fees using the information entered.

Firms that use the Claimed Inspection and Tonnage Fee Exemption, Line [20], are reminded to complete Section F. If the firm that is paying the Inspection and Tonnage Fee on your behalf does not complete Section G on their report form, your claimed exemption will be disallowed, and you will be responsible for paying the fee for those tons. It is strongly recommended you have a written agreement specifying who is paying the Inspection and Tonnage Fee.
