- C. Are the effects of the proposed action on the quality of the human environment likely to be highly controversial?
- D. Does the proposed action have highly uncertain effects or involve unique or unknown risks on the human environment?
- E. Does the proposed action establish a precedent for future actions with significant impacts or represent a decision in principle about a future consideration?
- F. Is the proposed action known or reasonably expected to have potentially significant environment impacts to the quality of the human environment either individually or cumulatively over time?
- G. Is the proposed action likely to have a significant adverse effect on ANY of the resources analyzed in the Environmental Law and Policy Review?
- H. Will the proposed action threaten a violation of Federal, State, or local law or requirements for the protection of the environment?

7. NEPA COMPLIANCE FINDING

I have reviewed and considered the types and degrees of adverse environmental impacts identified by this evaluation. I have also analyzed the proposed action for its consistency with the National Environmental Policy Act and have considered the potential benefits of the proposal. Based upon this consideration and balancing of these factors, I recommend one of the following:

This proposed action has been sufficiently analyzed in an **existing Programmatic Environmental Assessment with a Finding of No Significant Impact (FONSI)** and there are no predicted significant adverse environmental effects or extraordinary circumstances. This document is being tiered from:

Programmatic Environmental Assessment for Local Meat Capacity Grant (FONSI)

Programmatic Environmental Assessment for Organic Market Development Grant (FONSI)

Programmatic Environmental Assessment for Resilient Food Systems Infrastructure Program (FONSI)

This proposed action includes activities that do not fit within the Scope of the Programmatic Environmental Assessment or has the potential to significantly impact a protected resource. A **Site-Specific Environmental Assessment** or an **Environmental Impact Statement** should be completed to provide further and more complete analysis of any adverse impacts and approval of the action must be delayed pending the outcome of the analysis.
