Workers' Compensation Summary

REPORTING YOUR CLAIM	<p>If you are injured or become ill because of your job, you may be entitled to workers' compensation (WC) benefits. You should immediately tell your supervisor and seek medical treatment at an approved occupational clinic. The DMU will file a WC claim on your behalf with Sedgwick, the State's WC Third Party Administrator or provide you with the necessary information to file.</p>
PROCESSING YOUR CLAIM	<p>Sedgwick administers the SOM workers' compensation plan. They may contact you about your claim. The claims examiner will answer any questions you may have and may ask you for personal information to help determine any wage-loss benefits to which you may be entitled. Sedgwick may be contacted at 800-324-9901.</p>
MEDICAL CARE	<p>During the first 28 days of medical care, the SOM has the right to choose who provides your medical treatment. After 28 days, you have the right to choose any treating provider qualified to treat your injury or illness. Sedgwick will pay all reasonable and necessary medical care for your work-related injury or illness but has the right to question the appropriateness of treatment.</p> <p>If you seek medical treatment <u>before</u> a claim is filed, tell your doctor that you suspect your injury or illness is work-related. Your health-insurance carrier should not be billed for medical expenses that are covered by WC benefits for a work-related injury or illness.</p>
WHEN BENEFITS ARE DUE	<p>If your work-related injury or illness lasts <u>7 calendar days or less</u>, your WC benefit is limited to reasonable and necessary medical expenses related to the injury or illness. Wage-loss payment is not made. You may use sick or annual leave credits to cover these days in accordance with department policy or your collective bargaining agreement.</p> <p>If your work-related injury or illness lasts <u>more than 7 calendar days, but less than 14</u>, your covered WC benefit includes reasonable and necessary medical expenses related to the injury or illness, wage-loss benefits beginning on the 8th day.</p> <p>If your work-related injury or illness lasts <u>14 calendar days or more</u> your covered WC benefit includes reasonable and necessary medical expenses related to the injury or illness and wage-loss benefits from the date of injury or illness.</p> <p>If qualifying, your first check is sent to the SOM for payroll reconciliation. The SOM will mail your check to your home address. After the first check is reconciled, you will receive a weekly benefit payment from Sedgwick and, if applicable, supplemental biweekly payment from SOM. The combined total will equal 2/3 of your regular wages at the time of injury or illness.</p>
WAGE-LOSS BENEFITS	<p>Your wage-loss benefit payments are based on your average weekly wages, including overtime, from the average of your highest 39 weeks of pay of the 52 weeks immediately before to the date of injury or illness. The benefit is subject to a weekly maximum established by the Workers' Compensation Agency (WCA).</p>
