

CELEBRATING CAREER & TECHNICAL EDUCATION *Month*

February is Career & Technical Education (CTE) Month!

CTE programs provide hands-on training that can be applied to real-world, in-demand education, training and career pathways.

CTE programs also:

- Promote and support student access, retention and completion of a postsecondary CTE program.
- Offer academic, technical and real-world skills that prepare high school and college students for success today and in the future.
- Prepare students for employment in current or emerging careers requiring less than a bachelor's degree.

Get a jump start on your postsecondary education!
