

2022-23

MICHIGAN SCHOOL INDEX RESOURCE TOOLKIT

Michigan School Index System – 2022-23 RESULTS NOW PUBLIC!

Accountability reports and student datafiles for the Michigan School Index System are **NOW PUBLICLY AVAILABLE** at www.mischooldata.org/school-index/. Schools were afforded a courtesy window to preview their accountability results from Monday, November 27 to Monday, December 4, 2023, prior to the public release of these data. School Index results were publicly released on MI School Data shortly after the preview window closed.

What's New for 2022-23 School Index Results?

- Only new identifications for Targeted Support and Improvement (TSI) have been determined using 2022-23 School Index data; Comprehensive Support and Improvement (CSI) and Additional Targeted Support (ATS) identifications determined using 2021-22 School Index results will continue to display as such on 2022-23 School Index reports and for their required respective years of support.
- Long-term goals and component targets for the Michigan School Index System have been updated using data from the 2021-22 school year as part of recently approved amendments to [Michigan's Consolidated State Plan Under the Every Student Succeeds Act](#).
- Scores from the PSAT 9 and 10 will be used in deriving student growth scores and targets for 11th grade students taking the SAT. Prior to this, 11th grade students' scores from their 7th and 8th grade assessments were used to calculate growth values.
- Growth scores and targets (SGPs/AGPs) are again available for grades 4-8 and 11. This is a change from 2021-22 when students enrolled in grades 4 and 5 did not have assessment data necessary to calculate growth due to the pandemic. For 2022-23 only, growth for all grades only uses one prior test score. This allows growth calculations to only rely on post-pandemic data.
- School Index aggregate files are now available during the preview window. School Index Aggregate files allow districts and ISDs to download School Index summary and federal support identification data (CSI, ATS, TSI) for all schools at once—instead of having to navigate to each school's individual accountability report during the preview window. Click the link for Preview and Access instructions in the resource list below for more information and how to find.

Informational Materials and Links

The following table provides an extensive list of materials that have been created to document the Michigan School Index System, including how to access and understand School Index reports and datafiles on MI School Data.

2022-23 MICHIGAN SCHOOL INDEX RESOURCE TOOLKIT

Resource Type	Resource Name	Resource Description
Accessing Reports & Data	School Index Preview and Access Instructions	Information on instructions on accessing reports and previewing School Index results on MI School Data.
	School Index Reports on MI School Data	Link to School Index reports available on MI School Data. Please note you must be logged in to view the School Index reports in preview.
Overviews	Michigan School Index System Overview	One-page overview of the School Index system used to identify schools for supports.
	School Identification Flowchart – Overview of How Schools Are Identified for CSI, ATS, & TSI	Flowchart of how schools are identified for one of the three federal school support based on School Index results.
	Comprehensive Support and Improvement (CSI) Overview	Overview of the "Comprehensive Support and Improvement" support category.
	Additional Targeted Support (ATS) Overview	Overview of the "Additional Targeted Support" support category.
	Targeted Support and Improvement (TSI) Overview	Overview of the "Targeted Support and Improvement" support category.
Guides, Presentations, & FAQs	Public Guide to Michigan's Accountability Systems	Provides a public-oriented guide to the School Index system and school identification for support and improvement.
