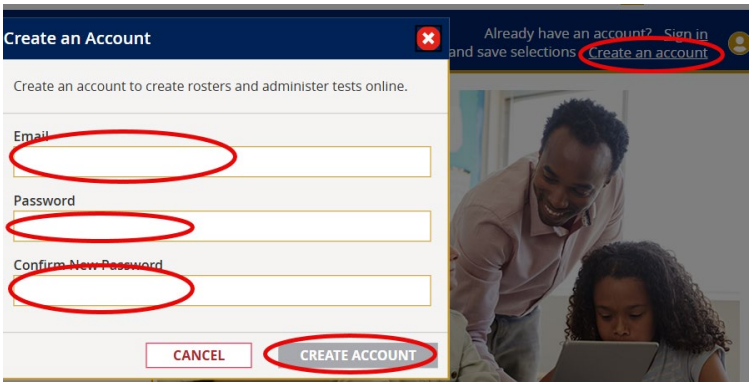
Instructions for Using the NAEP Questions Tool for Michigan Schools

There is a way that you can have your 4th grader take a test of tests using items that were on previous NAEP tests, and then compare responses against how students performed in previous assessments.

1. Go to this website: https://www.nationsreportcard.gov/nqt

2. I recommend creating an account if you would like to create a test using NAEP items. Click on Create an account and enter an email and password and then Create Account.



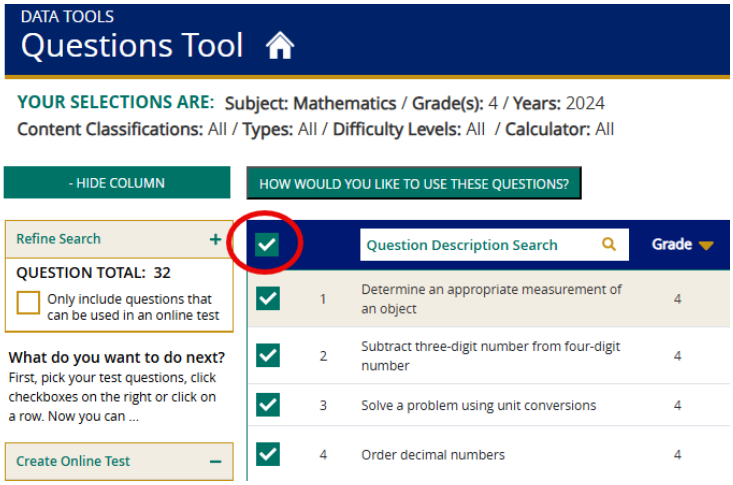
3. Use the pull down menu to select a subject (suggest reading or math).

4. Use the pull down menu to select a grade.

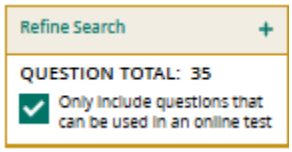
5. Use the pull down menu to select a year or set of years.

6. Click the green Enter the Questions Tool button.

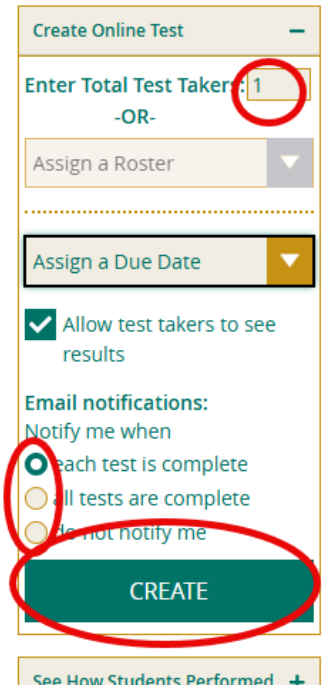
7. Click on the checkmark to the left of "Question Description Search" to select all items or select which items you want to include. You will not be create a test with more than 20 items, so you will need to select up to 20 items.



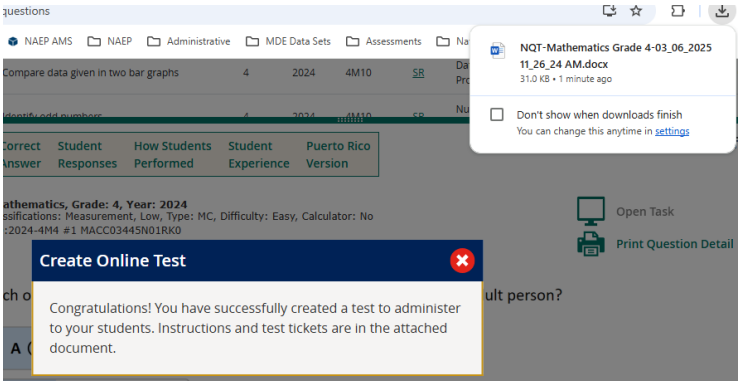
8. Click the *Only include questions that can be used in an online test* checkmark in the Refine Search box to the left of the listed questions.



9. On the left hand side of the screen, click Create Online Test and then enter the number of test takers, how you would like to be notified when the test is complete, and click the Create button.

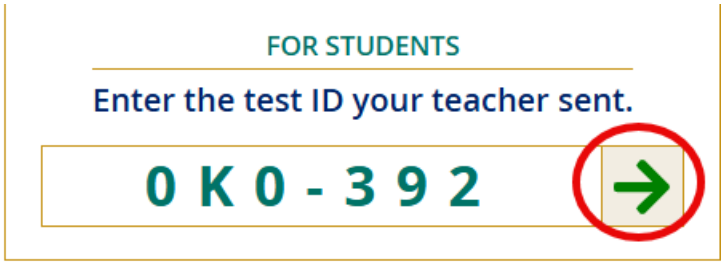


10. A Microsoft Word document will automatically be downloaded. You will also be sent the Word document if you created an account. Open that Word document.

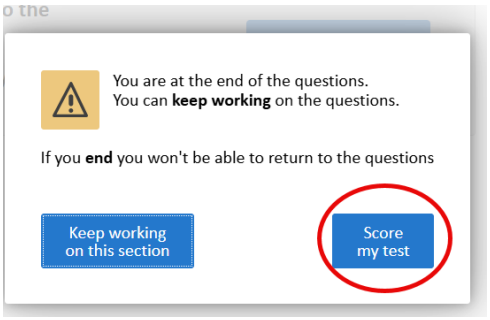


11. On the second page of the Word document, there will be a link the student can click on to take the test with the NAEP items you selected. Click on the link or copy the link and paste it into a web browser.

12. The NAEP questions tool page will open with the students test ID already entered. Click on the Green arrow to the right of the test ID.



13. A test will open. Have your student follow the instructions to take the test. At the end of the test, if you want your student to see his/her results, click the Score my test button. If you



14. In the Word document that you downloaded and/or were emailed, click on the "Test Results Page" link at the bottom of the document.

Test Link	Student ID	Test Code	Student Name
https://www.nationsreportcard.gov/nqt/?TestID=8HT-569	8G5-375	8HT-569	

To see results for the students who complete your test, you may either log into the NQT application and select "Test Results" from the log in menu, or click on the following link, which will take you directly to the test results page:

Test Results Page

15. A screen will open up with the assessment and choice of reports. The Student Item Detail Report will include information for why items were either right or wrong. The Comparison Report will give you comparisons for each answer against how students answered these questions nationally, in our state, in different states, or in different cities.
