

# Supporting Students in Special Populations with Elementary and Secondary School Emergency Relief (ESSER) Funds and Beyond

The COVID-19 outbreak has created a unique landscape in which many students encounter barriers to full participation and engagement in their education. Students may be experiencing changes in educational and basic needs during this time of interrupted traditional education and family loss of income. There may also be a new or increased lack of stability in housing, food insecurity, and difficulty gaining access to educational and social-emotional opportunities, supports, and resources.

ESSER Funds provide an opportunity for Local Educational Agencies (LEAs) to address these barriers and support students in accessing resources while learning at a distance, participating in hybrid learning, and returning to in-person instruction. ESSER funds have been included in the Coronavirus Aid, Relief, and Economic Security (CARES) Act, Coronavirus Response and Relief Supplemental Assistance (CRRSA) Act, and American Rescue Plan (ARP) Act federal legislation. ESSER legislation defines approximately twelve allowable uses of funds that support students. Some of the allowable uses of ESSER funds include a focus on supporting our special populations (Appendix A), including summer learning and enrichment, any activities under the Elementary and Secondary Education Act (current reauthorization is Every Student Succeeds Act, ESSA), activities that address unique needs, and those that address learning loss.

This document provides suggestions for additional supports for each of the special populations. In this document, Special Populations include students experiencing homelessness, migratory students, English learner students, neglected and delinquent students, At-risk eligible students, and students experiencing Foster Care. The strategies and activities should be determined at a local level as student and/or program needs are based on a variety of data and stakeholder voices. As part of the continuous improvement process, this document includes a resource with program planning questions for consideration (Appendix B). In addition to the below recommendations, there are a variety of strategies available in the MiStrategyBank and the following guidance documents shared by the Michigan Department of Education:

- April 12, 2021: *Learning Beyond COVID-19: A Vision for Thriving in Public Education* Memo [https://www.michigan.gov/documents/mde/NEA\\_AFT\\_Pivot\\_Report\\_722013\\_7.pdf](https://www.michigan.gov/documents/mde/NEA_AFT_Pivot_Report_722013_7.pdf)
  - Priority 2: Meeting the Needs of Our Most Underserved Students
- April 26, 2021: *Gifts that Keep Giving* MDE Superintendent Dr. Rice Video Communication
  - Michigan's Top 10 Strategic Plan focus
    - Expand early childhood learning opportunities
    - Improve early literacy achievement
    - Improve the health, safety, and wellness of students
    - Expand secondary learning opportunities for students
    - Increase the percentage of students who graduate from high school
    - Increase the percentage of adults with a post-secondary credential
    - Increase the numbers of certified teachers in areas of shortage
    - Provide adequate and equitable school funding
  - Utilize influx of new funding in long-term investments for students

## Suggested Activities by Special Populations

### Important Terms:

**Restart or renewal activities:** These activities are suggested to help students get back in school, get schools up and running, and address any unfinished learning by supporting students through acceleration instead of remediation.

**Sustainable Investment and Long term impact strategies/activities:** Support staff and instructional practice through the adoption and implementation of curriculum, professional learning, and coaching and training of staff. Although the funding is a one-time appropriation and will not be recurring, these types of expenditures will have a long-term impact due to building capacity and systems.

## Appendices

### Appendix A: ESSER Allowable Use of Funds for Special Populations

In the various COVID-19 legislation (CARES, CRRSA, ARP), which include the ESSER grants, there are many connections and allowable uses to support our students in special populations. As we adjust our LEAs, schools, classrooms, and programming to meet the needs of students, we need to ensure that we are utilizing these grants to provide restart, short-term strategies as well as sustainable programming investments. In the American Rescue Plan Act Section 2001 ESSER Fund law ([ARPA ESSER Excerpts](#)), you will find the following allowable uses that focus on supporting students identified in special populations. (Similar allowable uses are also defined in the previous ESSER fund laws.)

- A local educational agency that receives funds under this section— (1) shall reserve not less than 20 percent of such funds to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students’ academic, social, and emotional needs and address the disproportionate impact of the Coronavirus on the student subgroups described in section 1111(b)(2)(B)(xi) of the Elementary and Secondary Education Act of 1965 (20 U.S.C.6311(b)(2)(B)(xi)), students experiencing homelessness, and children and youth in foster care; and [Section 2001
- Any activities authorized under the Elementary and Secondary Education Act, IDEA, Carl D. Perkins Career and Technical Education Act, and Adult Education and Family Literacy Act. Section 2001(e)(2)(A)(B)(C)(D)
- Activities that address unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youths, including how outreach and service delivery will meet the needs of each population. Section 2001(e)(2)(F).Planning and implementing summer learning and supplemental afterschool program activities, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, students with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care. ARP Act Section 2001(e)(2)(M).
- Addressing learning loss among students, including low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency, including by—
  - (i) administering and using high-quality assessments that are valid and reliable, to accurately assess students’ academic progress and assist educators in meeting students’ academic needs, including through differentiating instruction;
  - (ii) implementing evidence-based activities to meet the comprehensive needs of students;
  - (iii) providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment; and
  - (iv) tracking student attendance and improving student engagement in distance education. ARP Act Section 2001(e)(2)(N)

#### **Appendix B: Program Planning Questions for Consideration**

- ❖ During the various modes of learning during the pandemic, what was successful for students, parents, and staff? What did not work?
- ❖ What are common barriers (equity-based, academic and whole child/basic needs) experienced by students across special populations to fully engage in educational opportunities?
- ❖ What strategies or programs may be considered to meet underserved student needs?
- ❖ How will the LEA build on successful programming to accelerate learning over the summer?
- ❖ How are schools re-envisioning relationships and making a concerted effort to connect each student with a staff mentor or trusted adult who is supportive?
- ❖ How can these funding opportunities be used to address short-term unfinished learning needs as well as to create a long-term sustainable impact?
