Definitions

Minimum foundation is the lowest possible foundation identified in legislation.

Target foundation is the target amount identified in legislation.

PSA Max is the maximum foundation allowance allowed for all PSAs.

State Max is the Hold Harmless foundation amount. Beginning with FY2008, the state max and target foundation are the same amount.

CPI is the Consumer Price Index for All Urban Consumers from the prior year U.S. Bureau of Labor Statistics (US CPI for all Urban Consumers).

WA is the Weighted Average Foundation is calculated using LEA foundations and blended pupil count (General Ed and Special Ed). PSAs and ISDs are excluded from this calculation. The average is not calculated until the pupil count for the fiscal year is audited, normally after the August payment each year.

PDEWA is the Postsecondary Dual Enrollment Weighted Average Foundation prescribed in the Postsecondary Enrollment Options Act of 1996. The language was updated for FY2013 to cap the amount at the state max.

Blend is the Pupil Membership Blend. To date, supplemental counts represent a smaller portion of the blend. FY2014 and FY2015 use a current school year blend.

SB is a super blend that was in effect for the 2020-21 school year. That blend consisted of (.75 x (.90 x Fall 2019 + .10 x Spring 2019) + .25 x (.90 x Fall 2020 + .10 x Spring 2020))

Notes

Repeal of Section 20j in 2010

Hold harmless districts are no longer guaranteed the full foundation allowance per pupil.

Equity Payments and 2X Increases

FY2020: The payment reflects foundation grants that represent increases of up to \$240 per pupil, based on the 2X formula.

FY2019: The payment reflects foundation grants that represent increases of up to \$240 per pupil, based on the 2X formula.

FY2018: The payment reflects foundation grants that represent increases of up to \$120 per pupil, based on the 2X formula.

FY2017: The payment reflects foundation grants that represent increases of up to \$120 per pupil, based on the 2X formula.

FY2016: The payment reflects foundation grants that represent increases of between \$70 and \$140 per pupil, based on the 2X formula.

FY2015: Section 22c equity payments were equal to \$7251 minus the district's per pupil foundation allowance. The FY2014 equity payment was rolled into the FY2015 per pupil foundation allowance plus \$50.

FY2014: The FY2013 equity payment was rolled into the FY2014 per pupil foundation allowance.

FY2013: Section 22c equity payments were equal to \$7076 minus the district's per pupil foundation allowance.

Note: Earlier data can be found in the October State School Aid Update for the given fiscal year.

State Aid Reductions and Adjustments

FY2010: State Aid Reductions-Federal American Recovery and Reinvestment Act (ARRA) were for the third year in row used to replace \$184 Million shortfall in FY2010 State School Aid revenues (approximately \$116 per pupil). Districts were able to draw those funds through the Michigan Department of Education Cash Management System (CMS). In addition, Section 11d of the State School Aid Act reduced per pupil revenues by \$170.

FY2009: Federal American Recovery and Reinvestment Act (ARRA) were again used to replace a \$450 Million shortfall in FY2010 State School Aid revenues (approximately \$279 per pupil). Districts were able to draw those funds through the Michigan Department of Education Cash Management System (CMS). In addition, there was language added to Section 11d of the State School Aid Act that reduced per pupil revenues by \$154. Districts were to take that reduction against Section 22b discretionary funds or if a district school board and administration chose to take the reduction against another unprotected state categorical fund; it was to enter an agreement with MDE to develop a new service consolidation plan.

FY2008: Federal American Recovery and Reinvestment Act (ARRA) were used to replace the \$600 Million shortfall in FY2008 State School Aid revenues. That was approximately \$372 per pupil. Districts were able to draw those funds through the Michigan Department of Education Cash Management System (CMS).

State School Aid Proration Information

FY2004: The school aid revenue shortfall for FY2004 was \$131.1 million. Pursuant to the language in Section 11 of the State School Aid Act, local districts and public school academies school aid payments were prorated on an equal per pupil basis. The LEA/PSA proration was \$74 per pupil. State School Aid for each intermediate district was prorated on an equal percentage basis. The FY2004 State School Aid intermediate district reduction was calculated using a factor of 2.76% times the unprotected categorical funds.

FY2003: The school aid revenue shortfall for FY2003 was \$127 million. Following are proration factors for various sections of school aid:

22b Discretionary Payment	0.962118	61a(1) Vocational Education	0.962555
