Information on Focus Schools Released/Retained

Winter 2016-17

Questions to be Addressed

Reminder of "What is a Focus School?"

- How were release/retain decisions made?
- > What data were used?
- Can interested persons see the data used?
- What are the planned timelines for future release/retain decisions?

What is a Focus School?

Schools with large achievement gaps between their Top 30% and Bottom 30% (i.e., large gaps between their highest and lowest performing students)

How were release/retain decisions made?

Focus Cohort 2014 and remaining Focus Cohort 2013 and 2012 schools were evaluated against the exit criteria described in Michigan's current ESEA waiver (approved August 2015).

Achievement and improvement data from the 2015-16 and 2014-15 school years were used for the evaluations

How were release/retain decisions made? - Special Cases

Schools which have closed

Schools which have closed are given a status of Closed and are removed from the Focus List

Exit Criteria Descriptions

- Schools must have been in a Focus cohort for at least 2 years to be eligible for exit
 - All Focus Cohorts are eligible for exit at Winter 2017

- Schools eligible for exit were released if they had either:
 - Above average Bottom 30% improvement
 - Above average Bottom 30% achievement

Exit Criteria Measures

Improvement: Two-year average improvement of the school's bottom 30% is greater than the statewide two-year average of bottom 30% subgroup improvement in both Math and ELA for all applicable grade bands (elementary/middle and/or high school)

Exit Criteria Measures (continued)

Achievement: Two-year average achievement of the schools' bottom 30% is greater than the statewide two-year average of bottom 30% subgroup achievement in both Math and ELA for all applicable grade bands (elementary/middle and/or high school)

What data were used?

Data Element	Description	
Years/Tests	 2015-16 SAT, M-STEP, and MI-Access 2014-15 M-STEP and MI-Access 	
Grades	• 3-8 and 11	
Subjects	MathELA	
Measures	 Achievement (z-scores) Improvement (Student Growth Percentiles [SGPs]) 	

What data were used? Student Growth Percentiles (SGPs)

- Replaced Performance Level Change (PLC) and slopes as the improvement measure in Top-to-Bottom (TTB)
- Allows for a common improvement measure for both Elementary/Middle and High Schools
- Further descriptions of growth percentiles can be found online at <u>www.mi.gov/baa-accountability</u>

Can interested persons see the data used?

Go to MDE's Focus School website: www.mi.gov/focusschools

Click on Focus Exit List and Lookup Tool

- Lists all Focus Schools and their current status
- Gives a lookup tool to pull the data used for a single school's decision in a easy to understand layout
- Gives the aggregate (NOT student-level) data used for all schools

Focus School Release/Retain Lookup Tool

- A lookup tool similar to the Top-to-Bottom lookup tool has been created to help you understand why your Focus School was released or retained.
- Download the Focus School Release/Retain Tool to see the list of Focus Schools, their status, and a worksheet to see specifically how your Focus School measured against the exit criteria.

How to Use Lookup Tool

- In the Search box type the name (or partial name) of the desired school and press Enter.
- Find the desired school in the search results
- Type in the desired school's code and hit enter.
- The tool will refresh to show the data specific to your Focus School, including the exit criteria evaluated and whether or not your school met this objective.

Lookup Tool: Explanation of Status

Each school will have a brief message explaining their status.

- For example, a school with status Closed will have no data displayed and will have a message of:
 - This school is not eligible for Focus School exit review because it has closed.

Lookup Tool: Grade Band/Subject Areas

- The tool evaluates four grade band and subject areas (as they apply to the selected school)
 - Elementary/Middle School (E/MS) Math
 - Elementary/Middle School (E/MS) ELA
 - High School (HS) Math
 - High School (HS) ELA

School Code:

Selected ISD:	Sample ISD	Cohort	Status
Selected District:	Sample District	Focus Cohort	Delegend
Selected School:	Sample School	2012	Released

The school was released from being a Focus School because it met Focus School exit criteria.

Lookup Tool: Measures

		Focus Gap
	Measure	
E/MS Math	Achievement: 2-Yr Avg Bottom 30% z-score	
E/Ms	Improvement: 2-Yr Avg Bottom 30% SGP	

- Each grade band/subject area has two measures:
- Achievement: 2-Year Average Bottom 30% z-score
- Improvement: 2-Year Average Bottom 30% Student Growth Percentile (SGP)

Lookup Tool: Measure Evaluation

Focus Gap				
School's Value	Exit Threshold	Met Threshold?		
-1.2075	-1.0133	Not Met		
34.8114	31.7988	Met		

- Each measure has three columns used to evaluate that measure
 - School's Value
 - Exit Threshold
 - Met Threshold?

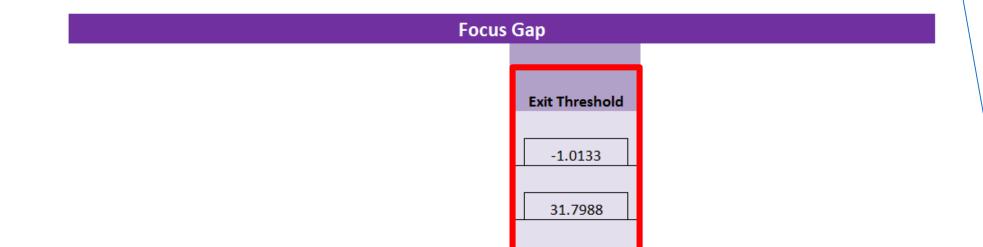

Lookup Tool: "School's Value"

Focus Gap						
	School's Value					
	-1.2075					
	34.8114					

"School's Value" gives the school's result for the indicated measure in that grade band/subject area.

In this case the E/MS Math Achievement: 2-Yr Avg Bottom 30% z-score had a value of -1.2075

Lookup Tool: "Exit Threshold"

"Exit Threshold" gives the threshold which the school's value must meet/exceed to meet exit criteria.

For Focus Gap this is the statewide average of that measure.

For example, the E/MS Math Achievement: 2-Yr Avg Bottom 30% z-score Exit Threshold is -1.0133

Lookup Tool: "Met Threshold?"

Focus Gap		
	Met	
	Threshold?	
	Not Met	
	Met	

"Met Threshold?" indicates whether the exit threshold was "Met" or "Not Met" for that measure.

In this case, for E/MS Math Achievement: 2-Yr Avg Bottom 30% z-score, they were "Not Met" because -1.2075 is less than the Exit Threshold of -1.0133.

Lookup Tool: Combining Measures

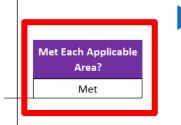

Focus Gap		
	Met Either	
	Threshold?	
	Met	

Determination of whether the exit threshold was "Met" or "Not Met" for EITHER measure in the grade band and subject

In this case, the school is "Met" for E/MS Math because even though Achievement was "Not Met", Improvement was "Met".

Lookup Tool: Combining Areas

A school level "Met"/"Not Met" determination is made based on whether the school "Met" each applicable area.

In this case the school is "Met" because it only has data for two areas (E/MS Math and E/MS ELA) and both of those area met the exit criteria.

Lookup Tool: Eligible for Exit Review?

- A final filter of whether the school's cohort is eligible for focus exit review is applied.
- Only schools which have been in a cohort for at least two years are eligible for exit based on the criteria.
- All Focus Cohorts are <u>eligible</u> for exit at Winter 2017

Lookup Tool: Final Status

Schools are then categorized into their overall status:

- Released: schools in a cohort eligible for exit review and which have met all exit criteria
- Retained: schools in a cohort not yet eligible for exit review and/or which have not met all exit criteria
- Closed: schools which have since closed.

What are the *planned* timelines for future release/retain decisions?

- Fall 2017, all remaining Focus Schools will be evaluated against the Focus exit criteria using 2015-16 and 2016-17 school year data for possible exit.
- Schools not meeting Focus School exit criteria will be retained until a later date.

Questions?

For questions relating to the lookup tool or data used, please contact:

MDE-Accountability@michigan.gov
