The Michigan Department of Education and the Library of Michigan are excited to showcase African American authors and their literary works each week during the month of February in celebration of African American History Month. Seven authors and their works are featured and were selected from nominations submitted by educators for use by educators.

Student literacy increases powerfully as students see themselves (mirrors) and others (windows) portrayed accurately in their reading as presented in the work of Dr. Rudine Sims Bishop. By raising the consciousness about great African American authors from educators to educators and by lifting up African American authors and their works, we seek to create conditions for greater engagement with literature among Michigan students.
