

English Learner Data Sources Catalog

Introduction

English Learners (ELs) are students acquiring proficiency in the English language. This document lists, describes, and provides links to data sources offered to schools and districts to help them support English Learner (EL) students. Additionally, this document provides link resources describing how to request access to secure EL data sources (i.e., those sources with student-level data or very small aggregate counts).

EL Data Sources Overview

The table below lists the EL data sources grouped by:

- (1) Access Level (whether they are available publicly or only to secure, authorized users),
- (2) Data Level (whether they provide individual student or aggregate data [e.g., counts, average scores, etc.])
- (3) Whether the data source is available for districts, schools, and different sizes of EL programs.

For descriptions and locations of each data source, please see later sections of this document.

Public Aggregate EL Data Sources

Public Aggregate EL Data Sources

The table below lists, describes, and provides links to data sources supporting EL students that are available to the general public.

Please note: All public reporting is limited to groups of 10 or more students. This is done to protect the privacy of individual students as required by federal law (Family Educational Rights and Privacy Act; FERPA).

Data Source	Description	Location	Supports
Public English Learner (EL) Dashboard	Provides aggregate outcome data specific to EL students at both the district and school levels. For groups with less than 10 students, data are not displayed.	www.MISchoolData.org > K-12th Grade > English Learner Data > English Learner Dashboard	mde-oeaa@michigan.gov 877-560-8378, option 5
Public Parent Dashboard for School Transparency	Provides aggregate data for schools in multiple areas, and places that data in context of the state average and similar schools. One of those areas is English Learner (EL) Progress, which measures the percent of EL students demonstrating either English language proficiency or adequate growth to become English language proficient. For groups with less than 10 students, data are not displayed.	www.MISchoolData.org > Parent Dashboard	mde-accountability@michigan.gov or 877-560-8378, option 3
Public School Index	School Index is Michigan’s accountability system used to fulfill federal requirements to identify schools most in need of further support. It provides aggregate outcome data in seven areas for the school overall and for each student group in the school. One of those areas is English Learner (EL) Progress, which measures the percent of EL students demonstrating either English language proficiency or adequate growth to become English language proficient. For groups with 10-29 students, data are displayed but not included in calculations. For groups with less than 10 students, data are neither displayed nor included in calculations.	www.MISchoolData.org > K-12th Grade > School Index	mde-accountability@michigan.gov or 877-560-8378, option 3

Secure Aggregate EL Data Sources

Secure Aggregate EL Data Sources

The table below lists, describes, and provides links to secure data sources supporting EL students. These contain student-level data or very small counts and so are available only to authorized users. Instructions on how to request access to these secure sources is provided at the end of this document.

Please note: All secure, authorized user, data sources providing aggregate data are for school and district internal use only. Only public reports should be shared publicly. This is because secure, authorized user, reports may contain data for groups smaller than 10 students and sharing them publicly could violate student privacy rights protected by federal law (Family Educational Rights and Privacy Act; FERPA).

Data Source	Description	Location	Support
Secure WIDA AMS Frequency Reports	Provides aggregate results in PDF form (average PL, average scale score, etc.) for state EL summative assessment (WIDA ACCESS or WIDA Alt Access) based on where students were tested. Can be run for school or district.	www.wida-ams.us/default.aspx >All Applications >Report Delivery >Test Results	How to access reports: WIDA@datarecognitioncorp.com or 855-787-9615 About report content: help@wida.us or 866-276-7735
Secure OEAA WIDA Assessment Aggregate Data Files	Provides aggregate results in .csv form (average PL, average scale score, etc.) for state EL summative assessment (WIDA ACCESS or WIDA Alternate Access) based on where students were tested. Can be run for school, district, ISD, or State.	www.mi.gov/oeaa-secure > Reports > Student Test Scores > Select Test Cycle (e.g., Spring 2019 WIDA WIDA) > Select Report Type "Aggregate Data File" > Select ISD, District, School > Click the [Search] button	mde-oeaa@michigan.gov or 877-560-8378, option 5
Secure MiLearn Assessment Aggregate Reports	Provides aggregate results (average PL, average scale score, etc.) for state EL summative assessment (WIDA ACCESS or WIDA Alternate Access) based on where students are currently enrolled regardless of where they were tested. Can be run for school or district. Requesting Access to Secure Data Sources

The data sources described above as “secure” require the user to have an authorized account with credentials to login. The table below gives resources describing the process to request an account to access secure EL data sources.

Data Source	Process to Request an Access Account
OEAA Secure Site	www.mi.gov/securesitetraining > Scroll down to the “Security” Section > Click on “Request Access” > Follow the instructions pertaining to your role
WIDA AMS	(Requires an OEAA Secure Site account) www.mi.gov/wida > Scroll down to the “General Information” section > Click on “How do I get access to WIDA AMS?” > Follow the instructions pertaining to your role
MI School Data, Secure Portion	www.mischooldata.org > Click on Help (near top right) > Scroll down to the “Help with Secure Login Access” section > Click on the link “K-12 Personnel” > Find the appropriate Technical Contact that administers MI School Data access for your ISD
MiLearn	Requires the district to opt-in and setup MI DataHub and then setup MiLearn. To opt-in and setup MI DataHub: www.midatahub.org > Scroll down (near the bottom) > Click on the button “Sign-up for the Michigan Data Hub” > Complete the MI DataHub interest form > The state will reach out with next steps, which include a sign-off by the district superintendent To setup MiLearn, > Complete opt-in and setup on MIDataHub > Contact the MiLearn Help desk at MDSupport@midatahub.org or (269) 250-9240 Once MiLearn is setup, > Login to the district’s local student information system (e.g., PowerSchool, Skyward, etc.) > Launch MiLearn from within the district’s local student information system
