MEMORANDUM

TO: Local and Intermediate School District Superintendents and Public School Academy Directors

FROM: Sally Vaughn, Ph.D. *Sally*
Deputy Superintendent/Chief Academic Officer

SUBJECT: Clarification Regarding Funding for Special Education Paraprofessionals with a Split-Assignment

Beginning with the 2012-13 school year, the Office of Special Education (OSE) will allow reimbursement of split-funded paraprofessionals that are not utilized full time in the delivery of special education programs, ancillary and other related services for that portion of time spent in the delivery of special education programs and services. Such paraprofessionals may be reimbursed under state or federal funding. The Chart of Allowable Expenditures for State and Federal Reimbursement will be updated shortly to reflect this change.

The decision to begin reimbursement of such personnel was made with significant input from local and intermediate business officials and directors of special education. It is clear that this decision will not impact all districts in the same manner and concerns still remain with appropriate costs being charged against both state aid and the federal grants. The decision is prospective only and such employees will not be reimbursed retroactively.

Districts seeking reimbursement for split funded paraprofessionals must complete a personnel activity report (PAR) for each individual. The PAR must reflect an after-the-fact distribution of the actual activity of each split-funded paraprofessional, must account for the total activity for which the employee is compensated and must be prepared at least monthly coinciding with one or more pay periods.

Memorandum

April 5, 2012

The OSE will randomly select school districts beginning with the 2012-13 school year to verify that split-funded paraprofessionals reported for state or federal reimbursement are completing the required PARs. Any school district, intermediate district or public school academy not completing the PARs or failing to have accurate documentation to support the PARs will be subject to the recoupment of state and federal reimbursement.

IDEA Reimbursement of Field Trip Transportation

The State School Aid Act allows school districts to charge field trips for special education pupils to the IDEA Flowthrough grant. School districts are not allowed to charge other special education related transportation costs to the IDEA Flowthrough grant. Such a transfer of charges is considered supplanting under federal regulations.

Field Trip Defined

Field trips are non-mandated and noncredit events, which are considered extra-curricular or co-curricular activities. Instructional activities that are scheduled away from school on a regular basis are not field trips. Examples are as follows:

Example 1: Special education students are scheduled three mornings a week at a community-based instruction site. Since this is a regular scheduled activity which is part of the special education curriculum for these pupils, it is charged as a transportation cost under Section 58 of the State School Aid Act. These costs for transportation may not be charged to a special education grant.

Example 2: A special education class travels to a local civic center to see a dance troupe perform. Since this is not a regularly scheduled part of the curriculum, the costs of transportation may be charged to the special education grant as a field trip.

Refer questions related to the reimbursement of field trips with the IDEA grant to:

Michigan Department of Education
Office of Special Education
P.O. Box 30008
Lansing, MI 48909

Using State Aid and Federal Funds Under IDEA for Severance Payments and Bonuses

Severance payments, or money paid to employees upon dismissal or discharge, are not allowable as a direct charge for reimbursement under State Aid or IDEA federal funds.

Bonuses and incentive payments that exceed the contracted salary amounts, regardless of being coded as a salary (17XX) or a benefit (2XXX) are not a requirement under state or federal law for the provision of special education programs and services and are not reimbursable for State Aid or IDEA federal funds.

CEIS Function Codes

Intermediate school districts, local educational agencies (LEAS), and public school academies may use the following function code when implementing coordinated early intervening services (CEIS) for students who are not currently identified as needing special education. The function code is for funds provided under Part B, Section 619, of the ***Individuals with Disabilities Education Act*** (IDEA).

Function Code:

111 Elementary
