

Indicator 18: General Supervision

What is Indicator 18?

The State Performance Plan/Annual Performance Plan (SPP/APR) Indicator 18: General Supervision evaluates the percentage of findings of noncompliance with the Individuals with Disabilities Education Act (IDEA) corrected within one year of identification. This compliance indicator assesses the effectiveness of Michigan's general supervision system.

LEA Responsibilities

Indicator 18 is used by the State for federal reporting in the SPP/APR. LEAs' (ISDs and member districts) corrective actions related to noncompliance contribute to the final data that the State reports for Indicator 18. The State compiles and submits this data as part of annual federal reporting obligations.

Data Source

Indicator 18 is based on noncompliance findings identified from the following:

- State monitoring of Indicators 4B, 9, 10, 11, 12 and 13
- Due Process Hearings and State Complaints

Indicator 18 Data Mapping Timeline

For FFY 2023, the SPP/APR submission is due on February 3, 2025. Noncompliance findings during July 1, 2022 – June 30, 2023, must be corrected within one year during July 1, 2023 – June 30, 2024.

FFY SPP/APR	SPP/APR Submission Due Date	FFY Uncorrected Noncompliance	Noncompliance Notification Period	Noncompliance Correction Period
2023	February 3, 2025	2022	July 1, 2022 - June 30, 2023	July 1, 2023 - June 30, 2024
2024	February 2, 2026	2023	July 1, 2023 - June 30, 2024	July 1, 2024 - June 30, 2025
2025	February 1, 2027	2024	July 1, 2024 - June 30, 2025	July 1, 2025 - June 30, 2026

How is Indicator 18 Calculated?

The Indicator 18 statewide compliance rate is calculated as follows:

$$\text{Compliance Rate} = \left(\frac{\text{Number of findings of noncompliance corrected within one year}}{\text{Total number of findings of noncompliance issued}} \right) \times 100$$

Example: If 150 findings of noncompliance were issued and 145 were corrected within one year, the compliance rate is calculated as $(145 \div 150) \times 100 = 96.67\%$. This means 96.67% of findings were corrected within the required timeline. The target compliance rate is 100%, meaning all noncompliance findings are corrected within one year of notification. In the example provided the state did not meet 100% target.

Required

Indicator 18 is required under 20 U.S.C. §1416(a)(3)(B) and 34 C.F.R. §§ 300.149, 300.600 with measurement guidance from the [Part B SPP/APR Indicator/Measurement Table](#) with clarifications provided by [OSEP QA 23-01](#) (July 24, 2023).
