State Aid & IDEA Part B, Section 611 Allowable Costs

Sections 51a, 52, and 53a of the State School Aid Act limit categorical reimbursement to costs approved by the Michigan Department of Education (MDE). Federal Flowthrough funds for the *Individuals with Disabilities Education Act* (IDEA) are appropriated in Section 51a of the State School Aid Act and are subject to the same funding criteria as state funded programs, except where noted.

The following is a list of items approved to be included as direct costs on the **2020-2021 and 2021-2022** SE-4096, Special Education Actual Cost Report, IDEA Federal Grant application, and Final Expenditure Report (FER). This list also applies to on-grounds juvenile detention programs funded under Section 24 of the State School Aid Act. Items not on this list require prior MDE written approval before being charged to the federal grant or state aid as direct costs.

Costs contracted from another Michigan public school district are not allowed on the SE-4096 and Section 24 SE-4824 cost reports or the IDEA Flowthrough grant budget.

MEMORANDUM

DATE: February 20, 2020

TO: Local and Intermediate School District (ISD) Superintendents,
Public School Academy Directors

FROM: Dr. Scott M. Koenigsknecht, Deputy Superintendent 
P-20 System and Student Transitions

SUBJECT: Clarification Regarding Funding for Special Education Secretarial/
Clerical Staff and Paraprofessionals with a Split-Assignment

Beginning with the 2019-20 school year, the Michigan Department of Education, Office of Special Education (MDE OSE) will allow reimbursement of split-funded secretarial/clerical staff who are not utilized full time in special education. This decision is a result of Michigan's School-Based Services (SBS) Medicaid Expansion/Caring for Students (C4S) (Medicaid Expansion). This replaces the previous requirement for secretarial/clerical staff to work 100 percent of the time in special education in order to be reported on the SE-4096 Special Education Actual Cost Report. This change extends past the Medicaid Expansion to include other types of split-funding. This change only applies to state aid funds. The use of Individuals with Disabilities Education Act (IDEA), Part B Flowthrough funds for secretaries/clerical staff is still not allowable.

Additionally, the MDE OSE continues to allow reimbursement of split-funded paraprofessionals who are not utilized full time in the delivery of special education programs, ancillary and other related services for that portion of time spent in the delivery of special education programs and services. Such paraprofessionals may be reimbursed under state aid or IDEA, Part B Flowthrough funding.

STATE BOARD OF EDUCATION

The split-funding of salaries and wages for secretarial/clerical staff and paraprofessionals must be based on records that accurately reflect the work performed. These records must be supported by a system of internal control which provides reasonable assurance the charges are accurate, allowable, and properly allocated. The personnel activity report (PAR) for is no longer required.

The MDE OSE is in the process of updating the State Aid & IDEA Part B, Section 611 Allowable Costs document, the SE-4096 User Guide, and the SE-4096 Instructions to reflect the change to split-fund secretarial/clerical staff.

These changes directly align with Goal 7 of the MDE's Top 10 in 10 Goals and Strategies by developing an innovative and cohesive state education agency that supports an aligned, coherent education system at all levels (state, ISD, district, and school).

Appendix B: IDEA Reimbursement of Field Trip Transportation

The State School Aid Act allows school districts to charge field trips for special education pupils to the IDEA Flowthrough grant. School districts are not allowed to charge other special education related transportation costs to the IDEA Flowthrough grant. Such a transfer of charges is considered supplanting under federal regulations.

Field Trip Defined

Field trips are non-mandated and noncredit events, which are considered extra- curricular or co-curricular activities. Instructional activities that are scheduled away from school on a regular basis are not field trips. Examples are as follows:

Example 1: Special education students are scheduled three mornings a week at a community-based instruction site. Since this is a regular scheduled activity which is part of the special education curriculum for these pupils, it is charged as a transportation cost under Section 58 of the State School Aid Act. These costs for transportation may not be charged to a special education grant.

Example 2: A special education class travels to a local civic center to see a dance troupe perform. Since this is not a regularly scheduled part of the curriculum, the costs of transportation may be charged to the special education grant as a field trip.

Appendix C: Using State Aid and Federal Funds Under IDEA for Severance Payments and Bonuses

Severance payments, or money paid to employees upon dismissal or discharge, are not allowable as a direct charge for reimbursement under State Aid or IDEA federal funds.

Bonuses and incentive payments that exceed the contracted salary amounts, regardless of being coded as a salary (17XX) or a benefit (2XXX) are not a requirement under state or federal law for the provision of special education programs and services and are not reimbursable for State Aid or IDEA federal funds.

Appendix D: CEIS Function Codes

Intermediate School Districts (ISDs), Local Educational Agencies (LEAs), and Public School Academies (PSAs) may use the following function codes when implementing coordinated early intervening services (CEIS) for students not currently identified as needing special education. The function codes are for funds provided under Part B of the *Individuals with Disabilities Education Act* (IDEA).

Function Codes

- 111 Elementary
- 112 Middle / Junior High
- 113 High School
