## What are the roles of the MichiCANS Health Liaison Officers?

- The primary role of the MichiCANS HLO is to administer a MichiCANS screener for children in foster care. The MichiCANS screener helps with timely and appropriate behavioral health referrals to Community Mental Health Services Programs and Medicaid Health Plans.
- The MichiCANS HLO may also back up the HLO to carry out their functions.

For more information regarding the MichiCANS standard assessment process, navigate to <https://www.michigan.gov/mdhhs/keep-mi-healthy/mentalhealth/mentalhealth/childrenandfamilies/michicans>
