Revised November 2019

MICHIGAN HANDS & VOICES

A Warm Welcome to
Our Community

Guidance for Raising
a Child who is
Deaf or Hard of Hearing

MICHIGAN

HANDS &
VOICES™

Who We Are

Michigan Hands & Voices is a group that supports families of children who are Deaf or Hard of Hearing (DHH).

We are families, people who are DHH, and professionals. We all want children to reach their full potential.

We provide help along the way of raising a child who is DHH. Together, we share experiences, hopes, and dreams.

We support all levels of deafness and hearing loss.

We support all language and communication methods. We believe we are stronger when we all work together.

“What works for your child is what makes the choice right!” ©

What We Do

Guide By Your Side™

Families visit with an experienced parent of a child who is DHH. These trained Parent Guides provide resources, strategies, and guidance. Free.

DHH Guides

We provide opportunities to meet adults who are DHH. They represent various communication and language choices.

Events

We offer Meet & Greets, trainings, and playgroups all over the state.

ASTra™

Our Advocacy Support & Training program (ASTra) offers free lay advocate services for our members. We also offer trainings for families and professionals. We specialize in the needs of children who are DHH.

Share Your Story

We teach parents how to tell their stories about hearing screening, identification, and education. Sharing stories can help train professional staff.

Annual Membership

Membership \$25
