Bereavement Parent Mentor Training

The Family Center for Children and Youth with Special Health Care Needs invites you to a Virtual Bereavement Parent Mentor Training

The training requirements for parent/caregivers are:

- Their child had a special health care need
- The loss occurred **at least** 13 months ago
- The parent desires to support another parent possibly with the same diagnosis, who has also experienced the loss of their child

In our free interactive **Parent Mentor Training**, you will learn from a fellow parent about:

- Parent-to-Parent Support
- Communication Skills
- Grief Support
- Self-Care

There is very little support for parents/caregivers who have had a child with special health care needs and have experienced the loss of their child. This Parent Mentoring Training is for parents who have had a child with a special health care need, experienced the loss of their child and would like to help other parents that are looking for support in their journey with grief.
