Non-Emergency Medical Transportation Assistance for In-State and Out of State Assistance

Non-Emergency Medical transportation (NEMT) reimbursement is available to Children's Special Health Care Services beneficiaries when they need to obtain, and access authorized medical care and treatment in-state and out of state as appropriate. The treatment must be related to the qualifying medical condition and provided by a CSHCS approved provider. NEMT reimbursement is applicable to mileage, lodging, parking, tolls and fees, car rentals and flights.

Please join us as we host Sherry Kertesz from Children's Special Health Care Services (CSHCS) for a better understanding of Non-Emergency Medical transportation (NEMT) assistance.
