Happy New Year LHD Colleagues,

We have received several questions regarding requirements for renewing/reinstating coverage for clients over age 21 due to the eligibility expansion.

Here is what is needed to renew/reinstate coverage:

If a client's medical review date is before 09/30/2023, new medical is required to begin the eligibility process.

If a client's medical review date is 10/01/2023 and beyond and has current, full Medicaid, coverage can be reinstated without medical or an application/IRPA. We plan to find and update these clients automatically.

If a client's medical review date is 10/01/2023 and beyond and DOES NOT have Medicaid, see below:

If coverage lapsed less than 12 months ago, an IRPA is required if the client is beyond their financial review date.

If coverage lapsed over 12 months ago, an application and IRPA is required.

Coverage cannot begin before 10/01/2023. In some cases, this will cause a lapse in coverage.
