Dear LHD Colleagues,

Join Michigan Family to Family (MI F2F), and the Family Center for Children and Youth with Special Health Care Needs (Family Center) for a series of learning sessions.

Session Description: Michigan Assistive Technology Program (MATP).

Date: March 20, 2024 Time: 12:00 pm to 1:00 pm

This one-hour workshop will cover information about the Michigan Assistive Technology Program (MATP). MATP provides access and information on low-tech and high-tech assistive technology device options available for people with disabilities. What is Assistive Technology (AT)? AT is any tool, software, or app that can help people with disabilities do what they want to do. MATP offers a lending library with a wide variety of devices. They provide trainings on how to use AT devices, and short- and long-term loans of AT are available to help identify what works and what doesn't work. Presenter will be Erin Shannon from the Michigan Disability Rights Coalition.
