Attached is an updated list of decision codes our medical consultants use when making medical eligibility determinations.

There are two new codes I would like to highlight that have been added to the list:

Denial code 68: CSHCS does not cover this condition after the client turns 26 years old.

Pend code 40: Documentation of physician participation is necessary for CSHCS eligibility, this includes physician signature, physician addendum to note or a statement that plan was discussed with physician.

This list has also been added to the LHD Forms Download in the CSHCS database.

Please let me know if you have any questions.

Thank you!

Kristie Brandell
