Dear Provider:

**RE:** Nursing Facility Quality Measure Initiative Resident Satisfaction Survey Data

Pursuant with section 10.7.D. Nursing Facility Quality Measure Initiative (QMI) of the Nursing Facility Cost Reporting & Reimbursement Appendix of the MDHHS Medicaid Provider Manual, the Behavioral and Physical Health and Aging Services Administration (BPHASA) has established the nursing facility (NF) QMI. The QMI provides payments to NFs based on their average [Nursing Home Compare \(NHC\)](#) quality measure domain star ratings and factors in the submission of resident satisfaction survey data.

Effective for the rate year beginning on October 1, 2022, an adjustment will be made to QMI payments for the submission of resident satisfaction survey data from recently performed surveys. Per-bed QMI payments will be multiplied by 100% for NFs that submit acceptable resident satisfaction survey data and documentation. Payments will be multiplied by 85% for providers who do not submit acceptable data and documentation (i.e., a provider who submits the resident satisfaction survey data will receive their standard QMI payment while a provider who does not will receive 85% of their standard payment).

In order for a provider to receive credit for submitting resident satisfaction survey data, BPHASA will require the following data and documentation\*:

- A copy of all the questions from the survey.
- A summary of the survey response results.
- The number of residents residing at the NF at the time of the survey.
- The number of residents who received the survey.
- The number of completed surveys:
  - The number or percentage of surveys completed by residents,
  - The number or percentage of surveys completed by the residents guardian or designee on the residents behalf,
  - The total number of surveys completed.

- The survey date range (i.e., the date the survey was sent out, through the deadline for submission).
- The survey frequency (i.e., annually, quarterly, monthly, etc.).
- The entity that conducted the survey (i.e., the facility, an organization independent from the NF, etc.)
- The survey data collection methods (phone, mail, live interview, etc.).
- An explanation of how the provider uses the survey results to improve the quality of resident care.

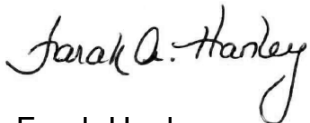

\*The survey, survey responses, and survey checklist must not include any protected health information.

BPHASA does not require the resident satisfaction survey to be completed in a specific method (e.g., the survey does not have to be a live interview, the survey does not have to include a specific set of survey questions chosen by BPHASA, etc.). However, the survey must be a resident satisfaction survey. Another type of survey (i.e., family satisfaction survey data, employee satisfaction survey data, etc.) will not be accepted in place of a resident satisfaction survey. The survey must have occurred no earlier than June 29, 2021, and the survey data must not be from survey data submitted for prior year QMI payments. NFs that have completed multiple surveys within that time should submit data from the most recent survey.

The resident satisfaction survey data and documentation must be submitted electronically to the BPHASA Long Term Care Operations Section via email at [MDHHS-NFQMI@michigan.gov](mailto:MDHHS-NFQMI@michigan.gov) by **September 20, 2022**. Additional data or information requested by the BPHASA Long Term Care Operations Section relating to a resident satisfaction survey data submission must be submitted within five (5) business days of **September 20, 2022**, for the submission to be accepted.

To assist providers with the data and documentation submission, a checklist has been included with this letter. Any questions regarding this letter should be directed to [MDHHS-NFQMI@michigan.gov](mailto:MDHHS-NFQMI@michigan.gov).

Sincerely,

Farah Hanley  
Chief Deputy for Health
