

Distribution: Hospital 03-02
Medicaid Health Plans 03-02

Issued: June 1, 2003

Subject: Update DRG Grouper to Version 20.0
Rehabilitation Hospitals and Distinct-Part Rehabilitation Units
Audited Wage Data
Inflation Factors
Delay in Implementation of GME Weighting Factors
GME Payments to Coincide with State Fiscal Year
DRGs 526 & 527
Filed Cost Reports

Effective: July 1, 2003

Programs Affected: Medicaid, Children's Special Health Care Services (CSHCS)

Update DRG Grouper to Version 20.0

Effective July 1, 2003, claims for inpatient hospital admissions using the Diagnosis Related Group (DRG) methodology will be processed using new Medicare DRG Grouper Version 20.0. The Department of Community Health (DCH) has established its own relative weights, average lengths of stay, and high and low day outlier thresholds for each DRG based on fee for service paid claims data taken from hospital admissions between September 1, 1996 and August 31, 2000. Hospital prices for medical/surgical hospitals reimbursed by DRG will be updated.

Rehabilitation Hospitals and Distinct-Part Rehabilitation Units

Per Diems for rehabilitation hospitals and distinct-part rehabilitation units will be updated using the same base period, cost report periods, inflation and weighting factors as used for the medical/surgical hospitals. An area wage adjustor, rather than a hospital specific wage adjustor, will be used. Hospitals will be grouped by U.S. Census Metropolitan Statistical Areas (MSAs) as published in the most recent Federal Register for wage data.

Audited Wage Data

Medicare-audited wage data for hospital fiscal years ending between September 1, 1997 and August 31, 2000 was used for the updated wage adjustor. The updated wage adjustor is based on a three-year moving average, with the most recent year weighted 60%, the second year weighted 24%, and the initial year weighted 16%.

Wage data included contract labor costs and hours. Physician Medicare Part B labor costs and hours will be excluded.

Filed wage data is used for hospitals where audited data is not available.

Inflation and weighting factors are applied to bring all periods to a common point in time. The following factors, with inflation derived from the 2nd quarter 2002 Data Resources, Inc. PPS-Type Hospital Marker Basket Index will be used:

<u>FYE</u>	<u>Wage Inflation Factors</u>	<u>Weighting Factors</u>
9/30/97	1.1065	0.16
12/31/97	1.0980	0.16
3/31/98	1.0890	0.16
6/30/98	1.0799	0.16
9/30/98	1.0708	0.24
12/31/98	1.0625	0.24
3/31/99	1.0544	0.24
6/30/99	1.0463	0.24
9/30/99	1.0388	0.60
12/31/99	1.0302	0.60
3/31/00	1.0209	0.60
6/30/00	1.0107	0.60
9/30/00	1.0000	0.60

Inflation Factors

The inflation factors used for the April 1, 2002 rebasing remain the same. There will be no cost inflation for FY'02/03.

Medicaid Health Plan Payments to Hospitals

Medicaid Health Plans (MHPs) are to reimburse out-of-network medical/surgical hospitals for admissions on and after July 1, 2003 at the Medicaid DRG hospital prices effective on July 1, 2003. MHPs are to reimburse out-of-network distinct-part rehabilitation units and freestanding rehabilitation hospitals for admissions on and after July 1, 2003 at the Medicaid per diem rates effective on July 1, 2003. MHPs are to use Medicaid DRG Grouper 20.0 effective on July 1, 2003 to process inpatient hospital claims, assign DRGs, and to determine relative weights, outliers and average lengths of stay. The Medicaid hospital operating cost-to-charge ratios effective on April 1, 2002 should continue to be used for admissions on and after July 1, 2003. The DRG and per diem payments represent the operating cost portion of the total payment made to hospitals by the program.

GME Weighting Factors

MSA Bulletin 01-27 issued October 1, 2001 indicated that, effective July 1, 2003, two separate weighting factors would be used to calculate the graduate medical education (GME) payments made to eligible teaching hospitals. The two weighting factors were: 1) the number of a hospital's physicians board-certified a minimum of three years after the end of the hospital's residency program, divided by the total number of board-certified physicians for all teaching hospitals, and 2) the number of a hospital's physicians participating in the Medicaid program a minimum of three years after the end of the hospital's residency programs, divided by the total number of physicians participating in the Medicaid program for all teaching hospitals. The use of these weighting factors to calculate hospital GME payments is being delayed until October 1, 2004.

Calculation of GME Payments

GME payments will be recalculated annually to coincide with the state's fiscal year (October 1 to September 30). The phase-in period for the transition to the new GME distribution formula (from 75/25 to 50/50) will be delayed until October 1, 2003. Data used to calculate the GME payments will be taken from hospital cost reports ending in the second state fiscal year prior to the year in which the GME payments are made.

Relative Weights for DRGs 526 & 527

DRGs 526 & 527 are provided to reimburse hospitals for the insertion of drug-eluting noncoronary artery stents. The relative weights for DRGs 516 to 526 and 517 to 527 will be increased by the same percentages as used by the Medicare program (14.31% & 16.31%, respectively). As under the Medicare program, hospitals must bill surgical procedure code 3607 to have their claims assigned to DRGs 526 and 527.

Filed Cost Reports for Cost Settlement

For capital cost settlements for hospitals with fiscal years ending on and after January 1, 2002, the Medicaid program will use filed cost reports instead of audited cost reports to complete the hospital's Medicaid desk review and settlement prior to issuing its Notice of Program Reimbursement. The Medicaid program will no longer wait for Medicare to complete its audit of the hospital's cost report before Medicaid does its cost settlement. In order to capture the maximum paid claims data, Medicaid final settlements will not be calculated earlier than 27 months after the end of the hospital's fiscal year end.

For settlements prior to the above date, should the Medicare intermediary fail to provide an audited cost report for the hospital's fiscal year, the Medicaid program will use the hospital's filed cost report to complete its settlement.

The Medicaid program will continue to use the same criteria to reopen a completed settlement for filed cost reports it has used in the past with audited cost reports for Medicaid program data. Once the final settlement has been calculated and the Medicaid audit adjustment report has been sent to the hospital, the Medicare/Medicaid CMS 2552 report will not be amended.

Manual Maintenance

Insert Appendix – DRG Grouper Version 20.0. The current Appendix – DRG Grouper Version 19.0 should be retained until the hospital has completed processing all its inpatient claims for dates of admission from April 1, 2002 through June 30, 2003.

Questions

Any questions regarding this bulletin should be directed to Provider Inquiry, Department of Community Health, P.O. Box 30731, Lansing, Michigan 48909-8231 or e-mail ProviderSupport@michigan.gov. When you submit an e-mail, be sure to include your name, affiliation, and phone number so you may be contacted if necessary. Providers may phone toll free 1-800-292-2550.
